LOWELL SENDS MORE MEN  
TO CAMP DEVENSFirst Quota of Second Draft Left  
Today With Total of 157 Men  
—Crowd at Depot

Lowell sent away another contingent of her sons to Camp Devens this morning as her first quota of the second draft. At the time that the last increment left the city it was understood that they formed the first section of the second draft, but this was later denied by the officials at Washington. The men who made up the quota going away at that time have

been termed members of an "emergency" quota.  
There was nothing of a formal nature associated with this morning's departure. The men gathered at their respective exemption boards shortly before 9 o'clock and after receiving final instructions and a word of cheer from the officials, made their way to

LOWELL BOY SCOUT GREAT  
BOND SALESMAN

A subscription of \$10,000 from Denon A. D. Carter, secured by Guy Butler of Troop 3 of the Boy Scouts, was the outstanding feature of today's local Liberty loan activities. Scout Butler is proving the "best" of the campaign as far as the scouts are concerned, for he was the young man who walked into the scout headquarters a few minutes after 9 o'clock Saturday morning and announced that he had already secured 10 subscriptions for a total of \$4950.

## The Final Week

Today marked the beginning of the final week of the campaign. The drive will end on May 4. Lowell has already raised \$2,742,000 although her original quota was only three million. There is every probability that the four million dollar mark will be reached by the end of the drive or even sooner.

## The Boy Scouts

The scouts got into the game with a bang Saturday and succeeded in clearing up a round \$20,000. Today there was a little respite in their work owing to the fact that the young solicitors were at school but in every spare minute they have from until the end of the drive on Saturday, they will be "chasing the bonds."

The scout executive wishes to warn the boys not to sell bonds on the installment plan with those blanks which are for the one-payment method. Special installment blanks may be secured at the scout headquarters. Liberty loan and flag posters may also be secured there.

This evening at Keith's Theatre Troop 28 is scheduled to sing the French national anthem and Mrs. F. L. Roberts and Miss Edith Thompson will sing the American anthem and other patriotic numbers. At the same time scouts will distribute Liberty bond applications through the audiences. Scoutmaster Fred Timmins spoke Saturday at Keith's and scouts took orders for subscriptions. In all eight bonds were sold and one of these for \$1000. Scout Charles Emerson of Troop 1 was the salesman.

Large Subscriptions  
A few more industrial reports were included in Saturday evening's bank returns. They included \$5300 from 23 workers of the John Pilling Shoe Co. and \$26,200 from 350 employees of the Hamilton Mfg. Co.

## 156 U. S. CASUALTIES

Two Lists Were Issued Today—  
Killed and Missing in Action  
Numbered 22

WASHINGTON, April 29.—Two casualty lists given out today by the war department contained 156 names. The killed and missing in action numbered 22. Ten officers were named.

The first list contained 74 names, divided as follows:  
Killed in action, 13; died of wounds, two; died of accident, two; died of disease, 10; died of other causes, one; wounded severely, 11; wounded slightly, 32; missing in action, three.

Capt. Arthur P. Locke was among those killed in action.

Among the slightly wounded were Lieuts. Herbert A. Chase, James J. Flanagan, Robert Hayes, William J. Klevener, William H. Osborn and John P. Ratatzak.

A second list contained 82 names, divided as follows:

Killed in action, five; died of wounds, four; died of disease, three; wounded severely, 14; wounded slightly, 55; missing in action, one.

The second list contained the names of three officers: Lieut. Norman P. Head died of wounds; Lieut. James J.

Parsons was wounded severely, and Lieut. Edgar B. Noland was reported missing in action.

WITH THE AMERICAN ARMY IN FRANCE, Sunday, April 28. (By the Associated Press.)—The French army today paid an historic tribute to the United States when 122 soldier sons of Massachusetts were decorated with the War Cross for bravery displayed in recent fighting. The ceremony, which was held on a picturesque field a short distance from the front line trenches, was one of the most impressive in which American soldiers have participated since their entry into the war.

WASHINGTON, April 29.—Formal announcement that American troops will be reinforced the allies armies have taken part in the fighting is made today by the war department in its weekly review of the situation.  
"Our forces have taken part in the battle," says the statement. "American units are in action east of Amiens. During the engagements which have raged in this area they have acquired themselves well."  
The review, in emphasizing the immediate need of fresh men to withstand the German onslaught, adds that America's imperative duty is to provide reinforcements.

CRUCIAL TEST OF ALLIED  
HOLDING POWER AT HANDNew Phase of Great Drive in  
Flanders — Germans Open  
Heavy Bombardment With  
High Explosive Gas Shells on 10  
Mile Front—Big Battle Raging

The Germans today began what seems to be a general assault on the British hill positions on the Kemmel front southwest of Ypres, opening a new phase of the great drive in Flanders. Apparently the crucial test of the allied holding power in this area is at hand.  
The preliminary bombardment, started in the early morning, took in a 10-mile front from Meteret, west of Bailloul to Voormezele, two miles south of Ypres. Infantry attacks in this area developed shortly afterward and the battle appears to have been on in earnest when Field Marshal Haig's report was issued in London at noon.

The enemy has been striking with great fury at Voormezele for the past two or three days, evidently hoping

## Great Thrust Near Loere

Further attacks in the Voormezele sector may accompany the delivery of today's blow, but the greatest force of this thrust seems likely to manifest itself in the vicinity of Loere, where Scherpenberg, Mont Rouge,

TWO U.S. TRANSPORTS IN  
COLLISION AT SEA

WASHINGTON, April 29.—Two American transports which were in collision at sea, several days ago, have returned safely to an Atlantic port, the navy department announces.

Secretary Daniels authorized the following statement:

"Two transports which were damaged in a collision at sea several days ago, have arrived safely at an Atlantic port. The two vessels were in a convoy and were running without lights when the accident occurred. Neither was seriously damaged, but both were

ordered to return to port for repairs. No lives are reported lost.  
"A board of inquiry will be appointed to make a thorough investigation of the accident."

GERMAN THREAT TO  
TAKE PETROGRAD

WASHINGTON, April 29.—Germany has demanded of Russia an exchange of prisoners and has threatened to take Petrograd unless the Russian government agrees to the terms advanced. The state department here has learned.

The German government, the state department despatch said, is sending to Russia a commission of 115 members to present the German demands.

The German demand, as outlined, calls for the immediate release of all German prisoners who are in good health; that those who are ill shall remain in Russia under the care of neutral physicians and that the Germans on their side will release only those Russian prisoners who are ill or are incapacitated.

## MACK SAYS BRAVES' CLAIM TO

PERRY IS NEWS TO HIM

PHILADELPHIA, April 29.—Connie Mack, manager of the Philadelphia American Baseball club, said today that the claim by Percy D. Haughton, president of the Boston Nationals, to the services of Scott Perry, a pitcher, was news to him.

"I signed Perry while we were training in the south," said Mack. "It appears he had been playing with various teams before coming to me and I believed he had been made a free agent by the national commission. There is nothing for me to do but to await the result of the commission's action on Haughton's claim."

THE FARMERS WILL USE  
TRACTORS

There is every indication that farmers in the towns surrounding Lowell will make use of tractors on their acreage this spring and summer and, thus, to a degree, aid in the solution of the labor shortage trouble.

The state has appropriated a large sum of money to be expended for the purchase of tractors and these, in turn, will be rented to farmers at reasonable rates—five dollars an acre.

The tractor is a labor and time saving device and has been used with great success in the large farming areas of the western part of the country and in Europe. Its use has been developed extensively in Scotland where the soil is of much the same character as that of New England.

The Lowell board of trade has taken up the proposition of introducing the tractor to the farmer, or the farmer to the tractor, and those who have been approached so far express themselves in favor of the machines especially at this period of labor and horse shortage.

The distribution and rental of the machines are handled through the Massachusetts Agricultural college, but the board of trade also has the power to arrange details. A tractor will be loaned to a farmer or group of farmers who have 10 acres or more to be plowed. This does not mean that these acres must be strictly adjacent. If they are on the same section, within a reasonable distance of each other, the machine with a driver will be supplied. The farmer will not be called upon to do a bit of work. The tractor can turn from seven to 10 acres a day, according to the nature of the soil.

The board of trade is working in cooperation with the Middlesex County Food Production and Conservation committee.

SHIP WITH AMERICANS  
ON BOARD TORPEDOEDParty of 57 Y. M. C. A. Workers  
Rescued When Ship Was At-  
tacked—Sank in 12 Minutes

LONDON, April 29.—A party of 57 army Young Men's Christian association workers under Arthur E. Hungerford arrived in London last night.

The ship on which they sailed was torpedoed yesterday morning and sank in 12 minutes. All the passengers and all but three of the crew were saved.

The passengers were picked up in lifeboats and landed at a British port. The Americans are all safe and well. On their arrival in London they were taken in charge by the American Y. M. C. A. and Red Cross.

The number of persons on board the vessel was about 200. One of the ship's officers told the Associated Press that the Americans had conducted themselves in an admirable manner. They were the better able to do this because they had spent most of their time aboard the ship in military drills and daily and nightly lifeboat drills.

Destroyers were sent immediately to the rescue and all the lifeboats were picked up within half an hour.

The vessel was struck amidships while proceeding at about 10 knots in a large conveyer under the protection of a number of destroyers in bright moonlight. There was an immediate heavy list and three minutes later the boilers blew up, extinguishing the lights all over the ship.

"The Americans behaved like veterans and were of the greatest assistance in launching the lifeboats and handling them," said one of the officers of the ship. Two of the members of the crew who lost their lives were caught below and went down with the ship. The third man was the ship's baker, who after reaching his lifeboat station went back for his money.

The discipline on board the ship was excellent. Although the time was brief, all the boats were launched successfully. Most of the Americans have little clothing and no baggage. Several of them lost their passports and all their money.

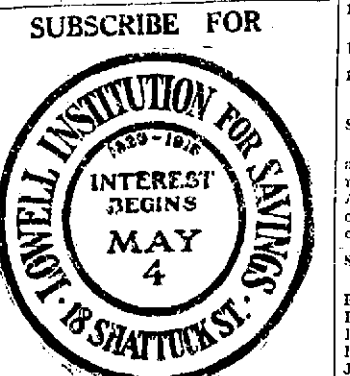

FALL RIVER GIRL DIES AS  
RESULT OF BURNS

FITCHBURG, April 29.—Miss Katherine Kearns, aged 22, of Fall River, a member of the junior class of the Fitchburg state normal school, died last evening at the Burbank hospital here, as a result of burns which she received on April 19. Miss Kearns was ironing and a holder which she was using caught fire from the open gas flame. She dropped it on the floor and endeavored to stamp out the flames with her feet and in the attempt her clothes became ignited. Her condition was found critical but she rallied until Sunday evening. She was the daughter of William and Mary Kearns.

CITY DIRECTORIES FOR  
YEAR 1917

Lowell business houses and other organizations or individuals who have copies of last year's city directory and have no particular use for them are asked to send the same to the office of the board of trade. The board has been receiving a number of requests from boards and chambers of commerce of cities in all parts of the country for a copy of the city directory. This morning a call came from fact-off San Francisco. The local board receives directories from nearly every large city in the country and these are open to the use of the public at all times.

THIRD LIBERTY LOAN

# NEW ENGLAND LIBERTY LOAN TOTAL

BOSTON, April 29.—Liberty loan subscriptions in the Boston Federal Reserve district totalled \$196,637,650 today with the tabulation of Saturday's returns amounting to \$12,633,000. New Hampshire today exceeded its Liberty loan allotment by more than a quarter of a million dollars.

The report by states was: Massachusetts, \$122,400,000; Connecticut, \$29,042,000; Rhode Island, \$18,995,000; Maine, \$11,623,000; New Hampshire, \$10,405,650; Vermont, \$5,319,660.

The official figures for Vermont, which reported to the New England general committee on Saturday that it had over-subscribed its allotment, had not been received at the Federal Reserve bank here today.

Charles A. Morse, governor of the Federal Reserve bank and chairman of the New England Liberty loan committee, called upon the savings banks in the district for subscriptions today.

In reminding the banks that the loan was lagging, Mr. Morse said: "The savings banks of New England have not as yet subscribed in any substantial amount, and it is the opinion of the Liberty loan committee of the Federal Reserve bank that savings banks should subscribe a minimum of 2 per cent. of their deposits to the third loan. There are no indications yet of larger withdrawals by depositors than in previous loans, although some have feared there might be, owing to the higher rate of interest on the present loan."

"The immediate situation is such that the loan can go through to success only if New England awakens."

## CRUCIAL TEST

Continued

Monte and other embassies are the enemy's activities. The French, who are holding the line at Loere, fortified themselves late last week by clinging to this village, although more than once driven out by savage thrusts.

### Bombard Lys Front

Another attack which was launched there yesterday afternoon was promptly repulsed. Probably to mask their real purpose, the Germans last night heavily bombarded the southern portion of the Lys battle front, from Givenchy to Nieppe wood and likewise turned their artillery loose on the front between Lens and Arras, farther south. No infantry attacks have been reported in these sectors, except on the part of the British, who by a successful coup last night re-captured the post taken from them last week near Festubert, north of Givenchy.

### French Break Up Attack

As in the case of the last previous heavy assault in Flanders, the Germans have also been demonstrating on the Somme front, although not in such force as was the case last week. They drove several times last night at the French positions in the Marais wood, however, and heavily bombarded this sector north to Villers-Bretonneux. The infantry attacks were broken up by the French fire, and the allied artillery vigorously answered the German guns in this region and between Lassigny and Noyon, on the lower side of the Montdidier salient.

### British Given Up Hill 60

Northeast and east of Ypres, Field Marshal Haig has withdrawn his lines to Verlorenhoek and Hooge and has given up famous hill 60, south of Ypres. On the south the British hold Voormezele after two days of the most bitter fighting, so that the Germans are still two miles from ruined

Ypres, which is being bombarded heavily, especially with gas shells.

### Artillery Activity in Picardy

In Picardy there has been no activity except by the artillery, the German cannon being very active on the front east of Amiens from Villers-Bretonneux to the Luce river. The French official announcement last Wednesday that American troops were now aiding the British and French in holding up the German advance toward Amiens, is confirmed in an Associated Press despatch direct from the New American positions.

### Huns Bombard American Positions

The German artillery is most active on the Toul sector, keeping up an intermittent fire against the American positions. It is believed the Germans hope by this show of activity to prevent the movement of American troops to the northern part of the western front.

### Reported Revolt in Petrograd

Despatches from Petrograd and Moscow, each dated Tuesday last, give no indications of the reported revolt in Petrograd on behalf of the former Grand Duke Alexis Nikolaievitch. Swedish newspaper correspondents in Finland continue to report rumors there that Alexis has been proclaimed emperor and that the new government will not be bound by the Bolshevik-German peace treaty. It is declared German peace treaty. It is declared German peace treaty. It is declared German peace treaty.

### Red Guard Forces Cut Off

Meanwhile the German and White Guards are rapidly approaching the Russian border north of Petrograd and the dissolution of the Red Guard is said not to be far off. The two largest Red Guard forces have been cut off from each other, and the capture of Viborg, 75 miles northwest of Petrograd by the Germans, is expected shortly. Communication between Viborg and Petrograd has been severed.

### Turks Captured Kars

In Transcaucasia the Turks continue their forced occupation of territory ceded in the Brest-Litovsk peace treaty and report the capture of Kars. Guns to the number of 860 were taken, Constantinople says.

### Holland Yields to Germany

The controversy between Holland and Germany, it is reported unofficially in a despatch to London, has been settled by Holland agreeing to the transport of sand and gravel through Dutch territory from Germany to Belgium. Holland is understood to have stipulated that the amount of sand and gravel used in making concrete must be limited and cannot be used for military purposes. Rumors in The Hague are that Foreign Minister Louren will resign as a result of the passing of the diplomatic crisis.

### British War Report

LONDON, April 29.—The Germans this morning opened a heavy bombardment with high explosives and gas shells on the entire front between Meteren and Voormezele, south and southwest of Ypres, the war office announced today. Infantry attacks developed shortly afterward.

An enemy attack which developed yesterday afternoon in the vicinity of Loere, west of Mont Kemmel was repulsed.

There was great activity by the hostile artillery during last night from the river Scarpe, opposite Arras, in the Lens and between Givenchy and Nieppe wood, on the southern side of the Lys battle front.

The post near Festubert, north of Givenchy, taken by the Germans last week, was recaptured by the British last night. More than 50 prisoners were taken here and other prisoners and four machine guns were brought in as a result of raiding operations in this sector farther south.

The text of the statement reads: "The hostile attack reported develop-

oping yesterday afternoon in the neighborhood of Loere was repulsed by rifle and machine gun fire.

"A heavy bombardment with high explosive gas shells was opened by the enemy this morning on the whole front from Meteren to Voormezele and infantry attacks are now developing."

"The hostile artillery has also shown great activity during the night from the river Scarpe to Lens and between Givenchy and the forest of Nieppe."

"By a successful enterprise carried out by us last night the post in the neighborhood of Festubert, captured by the enemy on the night of April 26-27, was recaptured by us, together with over 50 prisoners."

"A number of prisoners and four machine guns were also secured by us in a successful raid south of Albert and in the neighborhood of Neuville-Vitasse."

### French War Report

PARIS, April 29.—The Germans made several attempts last night to advance on French positions in Hangard wood, on the front before Amiens, but were checked by the French fire, the war office announced.

The statement follows: "During the night the Germans attempted several times to attack the French positions in Hangard wood. Our fire checked all their efforts. There was great activity of the artillery on both sides between Villers-Bretonneux and the Luce river and in the region between Lassigny and Noyon."

"A German raid north of Givrier was without result. French detachments penetrated the German lines in the vicinity of Corbeny, near Courcy, on the right bank of the Meuse and in upper Alsace, bringing back prisoners. There was very heavy artillery fighting at Fossez wood, and Caulieries wood, (Verdun sector)."

"On the remainder of the front, the night passed in quiet."

### Activity in Toul Sector

WITH THE AMERICAN FORCES IN FRANCE, Sunday, April 29.—(By the Associated Press)—There was increased artillery activity on the Toul sector today. A dawn the Germans began a heavy barrage against part of our line. This was accompanied by intermittent machine gun and rifle fire.

The enemy's activity is taken to mean that he is striving to keep the Americans busy so they cannot be sent north.

## BRITISH SEND UP S.O.S. SIGNALS

LONDON, April 29.—The British troops around Ypres several times after dawn this morning sent up S.O.S. signals for artillery support, telegraphs the Reuters correspondent at the British headquarters in France.

Although no definite report of an infantry attack in this region has yet been received, the correspondent adds, the tremendous German bombardment points to the certainty of a German attempt to advance.

## HUN ATTEMPT TO TAKE YPRES

WITH THE BRITISH ARMY IN FRANCE, April 29.—(By the Associated Press)—The fourth German army this morning heavily attacked the allied front in Flanders. Prisoners captured have admitted that the German intention is to attempt to capture Ypres. Severe fighting is reported in both the French and British areas. The attack extends over a front of about 15 miles. The Belgians on the Yser front also are reported to have been attacked.

## INTENSE BOMBARDMENT IN PROGRESS

LONDON, April 29.—(To Reuters Ottawa agency)—An intense bombardment from artillery concentration is in progress from La Bassée to south of Thoulst forest and from Vimy to Lens.

### RISKS LIFE TO SAVE WARSHIP

WASHINGTON, April 29.—How John MacKenzie, a chief boatswain's mate in the naval reserve, by extraordinary heroism, saved the converted yacht Remlik, on patrol service in European waters, was told yesterday in an announcement by Sec. Daniels that the navy department had awarded MacKenzie the medal of honor and five.

During a heavy Gale Dec. 11 a depth charge weighing several hundred pounds broke from its fastenings at the stern of the Remlik and went sweeping about the deck.

The safety pin fell out of the charge, making it a source of serious danger to the vessel and crew. MacKenzie shouted, "Watch me, I'll get it," and dashed down the deck, flinging himself upon the charging cylinder.

Three times the seas tore it from him and once it almost crushed him. On a fourth attempt he got a firm grip on the cylinder, heaved it upright on one ear end and held it until flames could be seen to him and he and the bomb safely landed.

The Remlik's commanding officer, in reporting MacKenzie's act, said: "Had this depth charge exploded on the quarterdeck, with the sea and wind that existed at the time, there is no doubt the ship would have been lost."

Before the war MacKenzie served four years in the United States navy. He is a native of Massachusetts. His mother, Mrs. Mary MacKenzie, lives in South Hadley.

### GOING TO DEVENS

The Knights of Columbus Glee club will go to Camp Devens tomorrow night to stage a concert for the men "up there." Director William F. Thomson will be in charge.

### WITH NAVAL RESERVES

N. poleon Primeau, a popular conductor of the Bay State Street Railway Co., has reported for duty with the naval reserve at Boston. He lives at 222 Lakeview avenue.

### WILL HOLD JUNIOR PARTY

A group of Lowell high school students will hold a junior party at the Highland club hall on Wednesday evening, and from present indications a most enjoyable affair will be held.

## BREST-LITOVSK TREATY DENOUNCED IN RUSSIA

LONDON, April 29.—The newest Russian government in Petrograd, according to the Aftonbladet of Copenhagen, says an Exchange Telegraph despatch, has denounced the Brest-Litovsk treaty with Germany. It calls for a new treaty, with Estonia under Russian rule.

A despatch from Reuters' correspondent in Petrograd, dated Wednesday, April 24, and received today, contains no mention of the changes in the Russian government that have been reported from Scandinavian sources.

An Associated Press despatch from Stockholm Sunday, reporting rumors that former Grand Duke Alexis has been declared emperor of Russia in a counter revolution, added that the new government would refuse to recognize the peace treaty with Germany, Estonia borders on the southern coast of the gulf of Finland and extends from the gulf of Riga to near Petrograd. It has been reported that Emperor William was to become Duke of Esthonia and that Esthonia was to be closely allied to Germany.

## WOOD'S BUSINESS COLLEGE HELD ANNUAL BANQUET AND HEARD INTERESTING ADDRESSES

The annual banquet of Wood's Business college was held at Grafton hall Saturday evening, and was enjoyed by about 100 of the day and evening pupils. It was a respectable gathering of young people who are working hard to lift themselves for their life work.

A very palatable menu was provided with roast turkey as the chief dish among the viands. The party sat down at 8 o'clock and at the conclusion of the dinner Mr. John J. Brennan, chairman of the committee on arrangements, made a congratulatory speech complimenting the audience on the program, and Principal Wood on the success of the school. He then introduced the various speakers and participants in the program, which were as follows:

Chorus, "Over Here," song Miss Maureen Quinn; address on Liberty bonds, Henry A. Smith; piano solos, Misses Sadie and Lillian Sullivan and Helen A. Hart; address on War Savings stamps, Richard Brabrook Walsh; chorus, "After the War Is Over," song, May O'Reilly; violin solo, Mae Robinson; song, Miss Harriet Moran; address on Knights of Columbus war activity, Charles Landers, district deputy; chorus, "So Long, Mother," song, Walter Mack; remarks, Elliott F. Wood, principal; "Star Spangled Banner."

The school is soon to put out a

## VILLAGES CHANGE HANDS MANY TIMES

WITH THE BRITISH ARMY IN FRANCE, April 29.—(By the Associated Press)—Hard fighting continued about Loere and Voormezele, but elsewhere yesterday was a day of rest for the infantry as a whole.

The battle for Loere and Voormezele has been most desperate. Both places have changed hands several times in the past 24 hours, and at the latest reports it was an "even break" for the British were in possession of Voormezele, while the enemy seemed to have succeeded early in the day in getting a foothold in Loere again.

An engagement north of the Ypres-Comines canal was in progress throughout most of the night with the British holding doggedly and inflicting heavy losses on the attacking troops. The German casualties on this part of the front have been very severe.

The German artillery yesterday was smothering the ruins of Ypres in gas. Loere has changed hands at least five times since Friday. The Germans forced their way into the village after a sanguinary battle Friday, but were thrust out by a French counter-attack that night. Saturday in the forenoon the enemy again attacked heavily and recovered the village only to lose it when the French countered in the afternoon.

Yesterday morning's assault was ne-

## TWO ROANE BROTHERS ENTERED THE SERVICE OF UNCLE SAM TODAY

Two sons of John F. Roane of 55 Chapel street, the well known letter carrier, entered the service of Uncle Sam today. John F. Roane, Jr., proprietor of a confectionery store in Gorham street and well known as a singer, left this morning to report for active duty at Boston in the naval reserve, and James Roane, better known as "Roundy," and a star athlete of the local high school for a number of years, went to Camp Devens as a recruit for the national army.

James F. Donahoe of 50 Linden street also reported for active duty in the naval reserve this morning.

## SOCIAL AND FRATERNAL

The quarterly meeting of Spindle City lodge, No. 39, I.O. of A., was held Friday evening. Routine business was transacted and several applications were acted on. The lodge voted to purchase \$500 worth of Liberty bonds. After the business meeting an entertainment was given and refreshments were served.

# 50 WOUNDED AMERICANS HOME TO BOOST LOAN

AN ATLANTIC PORT, April 29.—Fifty American soldiers, most of whom have been wounded or gassed, have been brought to this port from France by order of President Wilson to take part in the Liberty loan campaign, according to an announcement made by the military authorities here yesterday.

The party, comprising enlisted men representing all branches of the army and commanded by Regimental Color Sergeant John J. Heffernan, arrived here on a transport Saturday night.

Six of the men wear French war crosses awarded for gallantry in action and all wear the gold "V" for foreign service. Many show by insignia on their right arms that they have been wounded.

Americans go into battle cheering and waving their hats, said Heffernan in describing conditions at the Franco-American front.

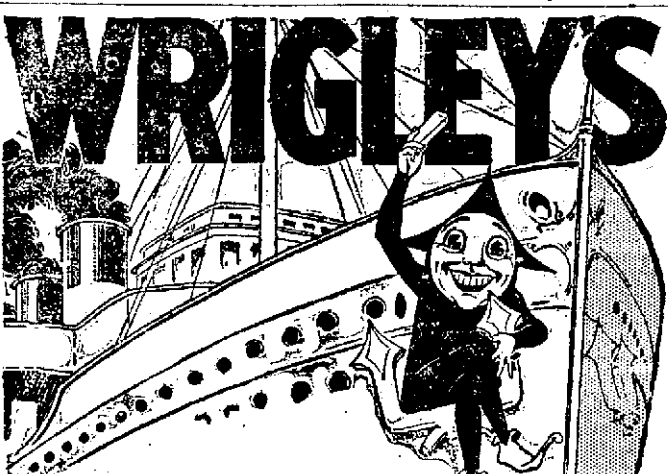

## NUX IRON PEPSIN and

**SARSAPARILLA**—Effective Spring Medicine Combination.

As comprised in Hood's Sarsaparilla and Pepsin, taken in conjunction, these valuable remedies possess unequalled value for the quick relief of a long train of ailments common in the Spring season. You know well the great tonic properties of iron—they are much increased and improved in this combination—Hood's Sarsaparilla before meals and Pepsin after.

In these days of rushing and pushing, beyond the endurance of even the most robust, nearly every man and woman needs this blood-purifying, cleansing, up-building in the Spring. If it is not supplied, the depletion of the blood and the broken-down nerves may soon give way to permanent ill-health.

If a cathartic is needed, as where there is biliousness or constipation, Hood's Pills should be taken. They are purely vegetable, do not irritate.

but they don't believe we are in it yet."

Heffernan drew a gloomy picture of what the agriculturist in France will encounter after the war, asserting that "there are many unexploded shells in the fields and the farmer who plows them won't find his life worth anything."

In Sgt. Heffernan's party was a 19-year-old boy, Corp. Osborn de Varilla of San Francisco, an artilleryman, who, his companions claimed, was the first American to fire a shot at the Germans last October.

De Varilla's gun was aimed at a communicating trench in the German front line and when his captain gave the word, 18 pounds of shrapnel went screaming over 1100 yards of No Man's Land.

"I felt pretty good when that old shell went sailing over the hill," de Varilla admitted.

The corporal said the Germans made their first raid in his sector on Oct. 31, and that it was after this raid that the body of an American soldier was found in front of the wire with his throat cut from ear to ear.

## NO ROOM HERE FOR IDLER, SAYS ENDICOTT

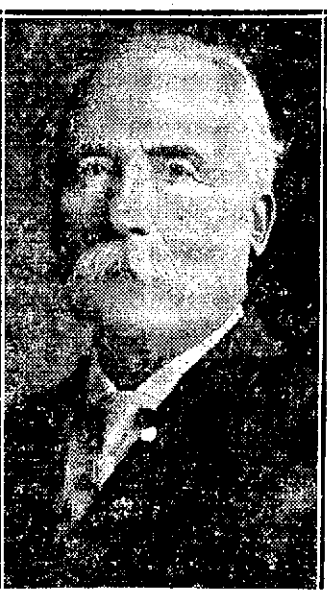

BOSTON, April 29.—The necessity that every available man be employed in some capacity in order that the war may be won was urged in a statement issued last night by Henry B. Endicott, executive manager of the state police safety committee, and James J. Phelan, one of the members.

"There should be no room in this country today for the idler, who is physically fit to work," said the statement. "If you don't have to work for the maintenance of yourself or your family, your duty is to work, nevertheless, for the maintenance of your liberty, that this, your form of government—the best in the world—shall endure to the end."

"To the boys who will shortly leave their high schools, preparatory schools and colleges for periods of from two to four months' vacation, we would suggest that you take the best vacation you ever had by getting a job."

## ABRAM FENTON PASSED AWAY YESTERDAY

Abram Fenton, a widely known resident of this city, died at his home, 25 South Loring street, yesterday afternoon. He was born in Woodstock, N.

ABRAM FENTON

B., Oct. 13, 1841, and on March 21, 1865, Mr. Fenton was united in marriage to Miss Clara Reed of Lagrange, Me., and this companionship extended over 50 years, his faithful wife now surviving him. Mr. Fenton served his country twice during the Civil war, entering first with the Second Maine Infantry and later with the Second Maine Cavalry. He was captured at the second battle of Bull Run and served as nurse in the L. by prison, where he was detained for a period of six months. He had been a resident of this city for 42 years.

After giving up his hardware business in 1908, he entered the purchasing agent's office at city hall as inspector, which position he had held for the past 20 years. Mr. Fenton was a member of Ladd and Whitney Post 155, G.A.R.

In his home life Mr. Fenton was quiet and affectionate, and leaves to mourn his loss, besides his wife, a daughter, well known in musical circles, Miss Clara H. Fenton.

## WHIRLWIND FINISH FOR N.E. LOAN CAMPAIGN

BOSTON, April 29.—With 72 per cent of the quota already in hand, Liberty Loan committees in the first Federal Reserve district went to work today to obtain more than the minimum allotment of \$250,000,000 before the close of the campaign Saturday. Reports from district chairmen indicated that the people were thoroughly aroused to the importance of making patriotic response to the government's call. While the general committee felt that the New England total would be over the mark, word went forth that continued effort and hard work would be required in every town and city.

The cheering news that Vermont had over-subscribed its allotment had a stimulating effect in the state, and the rivalry for first honors was expected to develop largely increased over night returns within the next few days. The Vermont total when included, probably today, in the official figures tabulated by the Federal Reserve bank here was expected to make Saturday's subscription the largest one day showing since the drive began.

Massachusetts must subscribe at the rate of \$6,500,000 a day from now until Saturday to reach its quota. Inasmuch as Boston is required to obtain the bulk of the state total, orders were issued today by the local committee for a whirlwind finish.

Charles Currier is the last of a remarkable group of aged persons who lived on adjacent farms in Warner, N. H. The oldest of the group attained the century and the youngest lived to the age of 92 years and 6 months.

## UNDER ESPIONAGE LAW

### Endenborn, "Father of Wire Industry in U. S.," Arrested

NEW ORLEANS, La., April 29.—William Endenborn, president of the Louisiana Railway & Navigation Co., and a naturalized citizen of German birth, was arrested by department of justice agents last night at Shreveport, La., on an affidavit charging violation of the espionage act.

The arrest followed a meeting here of the executive committee of the National Security League, Louisiana section, at which resolutions were adopted characterizing alleged utterances by Endenborn at an Americanization meeting of citizens of German descent, last Friday night, as "seditious treason against the United States and its allies."

The resolution adopted by the security league committee quoted Endenborn as having said at the Americanization meeting: "There has been much talk of Germany coming over here and attacking the United States. We may have no fear that Germany will ever attack the United States. It would take a maritime nation to do that because America is surrounded by water. America can look to other countries for any possible attacks in the future. Recently a certain prime minister stated our nation is mistress of the sea, has been mistress of the sea, and always will be mistress of the sea."

The speech is declared in the resolution "to breathe the arrogant spirit of Prussianism in its most hateful form and amounts to seditious treason, being in effect pro-German propaganda of the most cunning, insidious and demoralizing sort."

Endenborn, founder of the American Steel & Wire Co., now a part of the United States Steel corporation, has been referred to as "father of the wire

industry in America," having erected mills and produced wire in 1876, three years after he arrived in the United States from Westphalia, Prussia.

At a recent meeting of the permanent naturalization committee the following officers were elected for the ensuing year: President, Onesime Tremblay; vice president, David A. Parthenais; secretary-treasurer, Maximo Lepine.

The following delegations from various clubs presented their credentials: C.M.A.C.—Onesime Tremblay, Victor C. Salois and Ferdinand Rousseau.

Pawtucketville Social Club—Olivia Poirier, Joseph Payette, David A. Parthenais.

Centralville Social Club—Pierre A. Broussau, Alfred A. Jemery and Joseph Thierien.

Club Citoyens Americains—Timothée E. Roy, J. Arsene Trudel, Maximo Lepine.

South Lowell Improvement Association—Arsene Brin, Georges Gendreau and Arthur Demont.

It was voted to conduct naturalization classes for the French-speaking residents of this city in an endeavor to add more names to the check list and these classes will be held gratis.

## ST. PATRICK'S SCHOOL ALUMNI

The annual concert under the auspices of the members of St. Patrick's School alumni was conducted in the school hall last evening and the affair was a success in every way. The event was given for the benefit of the Boston college scholarship and the receipts of the evening were very substantial.

Rev. Bro. Osmund, principal of the school, had general charge of the program, which was as follows: Overture, Miner-Doyle orchestra; songs, Miss Catherine Sharkey and the Misses Regan; songs, Privates Conley and Lomis; songs of Camp Devens; songs, Martin Maguire; songs, Andrew A. McCarthy; readings, William Chandler; songs, Master Garrison, Martin Feeney, and selections, the sanctuary choir; chorus, "The Eagle was 'The Star Spangled Banner' by the entire chorus.

## ORDERED TO LEAVE

### Mother of Empress Zita Sent Out of Austria

PARIS, April 29.—The Princess Marie Antoinette, mother of Empress Zita, has been ordered to leave Austria within 24 hours and not re-enter that country until the termination of the war, according to a despatch from Geneva.

Empress Zita has been blamed by the pro-German party in her husband's empire as being responsible for Emperor Charles' now famous letter to Prince Sixtus of Bourbon, his brother-in-law, in which he made overtures for peace to France, and said France's claim to Alsace-Lorraine was just one. Anti-Teutonic tendencies have been attributed to the empress because of her Bourbon descent.

## 664,104 GERMANS

### MISSING MARCH 31

AMSTERDAM, April 29.—Speaking before the main committee of the German reichstag Friday, according to Vorwaerts, Gen. von Ritsberg stated that on March 31 last the number of German missing had reached a total of 664,104.

Of this number, he said, 236,678 were prisoners in France, 118,000 in England, 137,000 in Russia and Rumania, and the remainder, 161,248, could be regarded as dead.

## SHOT IN THE LEG

# LOWELL SENDS MORE MEN

Continued

the Middlesex street station without blare of trumpet or any semblance of impressive formality.

A total of 157 Lowell men went away this morning and with them were half a dozen or so draftees who had been transferred from other places to depart for national service with the Lowellians. Division 19 of Tewksbury also sent its quota to day, and the company of the Lowell men, so the Middlesex street station seemed a sort of a clearing house for the embryo soldiers.

At the Station  
Shortly after 9.30 the future soldiers began to put in an appearance at the station. Most of them walked from their exemption board headquarters to the scene of departure along the sidewalk, so that there was very little doing in the line of "parade features." Owing to the large number of men who went away today, there was a greater crowd than usual gathered at the station. Every nook and cranny was filled and the usual parting scenes of "Where's Johnny?" or "Be good, Bill," together with not a few moist eyes and sad faces were once more enacted. There was no music

and no speechmaking, but there was a world of impressiveness.

## Train on Time

Contrary to traditional custom, the train drew in almost exactly on the scheduled minute, 9.50. It was a long one with quotas from Haverhill and Lawrence taking up the first five cars. The final four were allotted to the Lowell and Tewksbury men. Each city was cheered in turn by the others and for 15 minutes there was a lot of excitement, shared about equally by the men who were leaving and those who were being left behind. At 10.04 a warning bell was sounded and in a few seconds the embryo soldiers were off for duty.

## Red Cross Outfit

Most of the Lowell men who went away today were supplied outfits by the local chapter of the Red Cross. And then there was the usual profusion of cigars, cigarettes, etc. It was as happy a send-off as send-offs can be.

## From Division 19

Division 19 exemption board with headquarters at Tewksbury sent away 52 men. They left Tewksbury about 9 o'clock and came directly to the Middlesex street station in autos and whatever other conveyances were handy. Before leaving the town hall in Tewksbury the men were addressed by Mayor Rushton of Methuen and officials of the board.

## Personnel of the Quota

The men who went away today, arranged in order of divisions, were the following:

## M.T.I. CONCERT PACKS THE OPERA HOUSE

The grand patriotic concert under the auspices of the Mathew Temperance Institute for the Knights of Columbus war work fund attracted a large number of people to the Lowell Opera house last night, the playhouse being taxed to its capacity. The fact that the affair was being held by the Mathews was enough to insure its success and that together with the fact that the proceeds were for a worthy cause was another incentive for people being present. The money made at this performance will provide many a soldier in France with comforts while the sol-

## THE WAR SITUATION

The war situation for the Allies is rather critical. The loss of Mt. Kemmel has jeopardized the whole Ypres salient and unless the peak is retaken and the enemy driven back the channel ports may eventually fall into the hands of the Germans.

The drive now is to reach Dunkirk on the coast which would force the evacuation by the Allies of the triangular area included within the lines drawn from Mt. Kemmel to Nieuport and Dunkirk. The distance between the two latter ports is about twenty miles, but within the area mentioned are many towns and villages. This would be a great sweep of territory to be acquired through forced evacuation.

If the Allies find that there is danger of the Germans breaking through towards Dunkirk, they will have to draw their line south from its present location touching the coast slightly above Nieuport. Otherwise the forces north of Dunkirk would be captured.

What Germany would do if she had possession of these channel ports can better be imagined than described. She could sweep the channel with her guns and even shell the coast of England. The prospect is one that must call for the most desperate resistance by the Allies and the most active co-operation by the United States.

## NEW FORMS OF ENERGY

With a new form of energy Herbert Spencer said he could revolutionize the world. Archimedes said he could lift the earth on a lever, if he had a proper fulcrum outside the earth. That little "it" in either case made the realization conditional upon what so far as can yet be determined is a clear impossibility.

Manual labor was the first form of energy utilized by man, although many others existed if he only knew how to find them. The name of the inventor of round wheels has long since been lost in the beginnings of history, but he gave the world a new form of energy which enabled men to travel and to move heavy material.

The varied application of the lever and the pulley added much to the scope of man's mechanical power.

Much later came steam, and with it a new world. Then electricity and petroleum, with the world again made over as we know it.

Today, scientific thought is focused on "garabed," the greatest fake or the greatest discovery of form of energy since Adam first put his hand to tools of labor. The claim for "garabed" is that it is energy without use of fuel or labor—perpetual motion, plus limitless power. There is probably a scrap heap mountain high of perpetual motion machines but Garabed Giragossian, who would now make us a new world, has convinced some of the brainiest people in the country of the superlative merit of his discovery, and congress has seriously accepted his proposal to demonstrate that he has what he claims.

Unlimited energy, without use of fuel or labor, would surely make a new world, by being devoted to beating the Hun, if in no other respect. And yet in the hands of the Hun it might be made the most potent weapon of destruction. England invented the fierce and fearless war tank but after the Germans captured a few of them they made tanks fully as powerful as the British and the spectacle was witnessed of the British being routed by their own invention.

What effect the discovery of a new form of energy would have upon the morale of the world, if it removed to any great extent the need of manual labor is problematical. If "garabed" should lead to the abolition of labor, the race would deteriorate from inactivity.

But should "garabed" be all that its discoverer claims for it, there will be an immediate attempt by diverse monopolists to capture it and deal it out in the manner best calculated to bring financial returns. The great mass of humanity can always rely that there will be some Rockefeller to pre-empt or control any such luxury and furnish it only as the people can afford to pay for it at such rates as he may be allowed to fix.

## CHURCHES AND BANKS

The churches and the banks of a city guide its moral and business life. Lowell is fortunate in the work being done by both. Some of the churches have out service flags with numbers running into the hundreds, while they are ever ready to aid every movement for the moral or spiritual uplift of the community.

The banks are institutions through which the financial business of a city is transacted. Without them business would languish. They furnish the money for great enterprises and extend credit which is an essential factor in business. In every city a very great proportion of the business is done on credit obtained through the banks.

The banks also offer a safe place of deposit for money and they pay a fair rate of interest on deposits, compounding semi-annually. In spite of this there is reason to believe that many men who have money carry it around with them, being afraid that the government might seize it if placed in a bank. Nothing could be more absurd than to suppose that the government would confiscate bank deposits in this way. The Bolsheviks of Russia looted the banks, but the United States government would not do such a thing even if it were face to face with the worst form of disaster. The local savings banks are thoroughly reliable institutions. The laws of Massachusetts throw the utmost safeguards around all such banks.

There is another consideration that should not be forgotten. It is that the person who hoards money instead

of putting it in a bank is a drone, a clog upon the wheels of progress. The great aim should be to keep money in circulation, passing from consumer to merchant, from merchant to bank, from bank to corporations and back to the consumer. Keep up that form of circulation and all will prosper.

Those who do not want to put their money in banks have a splendid opportunity to invest it safely in Liberty Bonds with the best security on earth.

## IMMIGRATION HALTED

When the present fiscal year ends, June 30, it is highly probable that a new immigration record will be set—the smallest since colonial days.

Immigration statistics of the first six months, just published at Washington, indicate that the year's total may be less than 100,000 persons. For the half-year ending Jan. 1, 1918, only 57,115 came to America, and since then the monthly totals have dwindled to a few thousands.

The war of course, is responsible. The real dwindling began when the United States entered the war. Since that day, only one country has sent anything like the normal number of immigrants. That is Japan, which country now leads all nations in sending immigrants to America. Japanese immigration this year will reach 12,000 as against 8925 in 1917, 8711 in 1916, and 8609 in 1915. During the first half of this fiscal year 6093 Japanese arrived, and they've been coming over during January, February and March at the rate of more than 1000 a month.

Italy, which before the war sent over seven times as many immigrants as Japan then did, this year will send less than a third as many.

Mexico, which sent over 16,438 immigrants in 1917, will send less than 3000 this year.

## THE LIBERTY LOAN

This is the last week of the Liberty Loan campaign and although Lowell has already furnished her quota it is still the patriotic duty of every citizen to keep on boosting it.

The drive is now for the \$4,000,000 mark and as the total thus far has reached \$3,733,000 there should be no difficulty in raising the balance or even exceeding it.

It is needless to say that nothing will indicate the stern resolve and loyalty of the American people more than the oversubscription of the Liberty Loan. The totals of Saturday night indicated 70 per cent of the loan subscribed. Secretary McAdoo has expressed the hope that the loan will be over subscribed for the effect it will have on the country as well as upon the enemy. It will show that the people are thoroughly aroused and are willing to furnish whatever funds are

"The Proper Tonic When Coughs Are Chronic."

## FOLEY'S HONEY AND TAR COMPOUND

"HAWKING" and spitting, with or without a hacking cough, notably disturbs and disgusts bystanders, but weakens and wears down the system of the sufferer so that the way is made easy for more serious sickness. It isn't "smart" to neglect a cold. On the contrary, it is downright foolish. It may sound quite bold and strong to say, "I don't believe in medicine or doctors," or "I never bother with a cold"—but just watch carefully the result of such practices. You hear the boasting and bragging man, "The cold went away," but you don't always hear the regret and sorrow when the cold stays and does its worst.

Let common sense, intelligence and common sense guide you. Act promptly to check any cold, no matter how slight. Stop any cough as soon as you can. "It's better to be safe than sorry." It is an old and true saying. Foley's Honey and Tar Compound loosens the phlegm and mucus, clears the passages, coats the inflamed and irritated membranes, soothes the throat and soothes the hoarseness, stops tickling in the throat and enables you to sleep, eat, rest, and feel better. It contains no opiates and is pleasant to take. Good for children as well as "grown-ups." Has relieved thousands of cases of spasmodic cough and whooping cough. In 25c, 50c and \$1.00 sizes.

## THE BAN IS OFF

The people of Lowell hear that the Camp Devens ban is off, but they know not why, just as they knew not why it was put on in the first place. We are told conditions are improved, although the police are not more active now than then. The ban has seriously injured the reputation of Lowell. The sale of liquor to soldiers was probably the chief cause which induced the authorities to stop men coming here. Any man who in future is caught selling to soldiers should be railroaded to jail just as quickly as the machinery of the law will permit. If the bootleggers have been driven out, the police should now see that they do not return.

## PUNISHING GERMAN SPIES

The people of this nation do not care much by what method the German spy system shall be put down, provided it be stamped out. There may be certain cases which would be more properly referred to a court martial than to a criminal court. It would be well to provide for summary methods in extreme cases. The machinery of the courts can be blocked and delayed by subsidiary motions and this may lead to delays that will result in the people taking the law into their own hands.

## SEEN AND HEARD

"Liberty is not the right of one, but of all."

It was Daniel Webster who said: "God grants liberty only to those who love it, and are always ready to guard and defend it."

WELL, WHY NOT BUY ONE OR TWO OR THREE? OR A WHOLE HALF DOZEN LIBERTY BONDS

## Receipt for Longevity

Take one quart of patriotism and two quarts of perseverance and stir into this one cup of Liberty loan extract. This is to make the substance rise. Beat thoroughly into this mixture of equal parts of harmony grit (one of W. L. Bragg's wheat flour substitutes) and Auntie Germania's proper gender. Season with extract of Reasoning and serve with crushed anarchy sauce, containing plenty of Haig. Then set out to cool slightly, but don't allow it to become cold before serving, and don't use camouflage plates which may have been infected with Kultur. N. B.—The Liberty loan extract is essential. Refuse all substitutes.

## And Then He Bought

The young business man was accosted on the street. He flashed the only alibi the bond solicitor honors—on his lapel. Then he explained. "Down home yesterday," he said, "we were talking about the loan. I came my kid brother. 'Well, I've signed up for a bond,' he said. 'I can earn enough after school working in gardens to pay for it.' 'Then in walked my kid sister. 'Well, I've signed up for another bond,' she said. She earns \$6 a week. 'And then my wife chimed in, 'I've already bought one! Spot cash.' 'I didn't know she had 50 cents, but she'd been saving on the house expenses. 'You can't count me any more,' he concluded. 'I went right out and signed up for a Run-Kicker myself. There weren't any excuses left!'

## New Button on Old Coat

The rearing of four hardy lads gives her little time to read the papers and less to attend meetings. "Daddy, what are the whistles and bells for?" she asked, looking up from her darning.

"Oh, just a reminder that you're not

raising Bobby, George and the rest of 'em to be boches," he replied: "Liberty loan, little woman." The answer didn't satisfy. Details she must have. Then she was thoughtful. Not a word, you understand, about the carefully hoarded roll of dollar bills upstairs, nor a word about the way she'd been "looking around" and how difficult it was to choose between the blue and the tan—both being perfectly adorable spring coats, and within her reach.

Some of her time the following afternoon was passed in the business district. Some merchant lost a sale, but he will not begrudge it, for in the lapel of the coat, when she returned, was a button.

"So you prefer a bell with a crack in it and the old coat to a new one?" he asked. "Yes," she replied, "and I am not apologizing. This neighborhood is noisy as it is, but when I thought of getting it in German I rushed right down to do my share, even if the corn muffins did get burned."

The Stubborn Pipe When this pipe jinx gets you for a dozen times—After you've scraped out all the ashes, and twiggled a cleaner through the strainer, and it drew as easy as a two-foot stack. Then filled it up with good war-tax tobacco, packed it in good and solid. Not too tight, and when it lit a match to it, and—Dag it to 'blazes!! It didn't draw! It's stuck tighter than a claimant's scalp. You enjoy pipe smoking about as much as The average golfer does Golf. We know, because we cuss just as much over our pipe as we do over our game of golf.

The Latest Dollar Third or thirtieth, what's the diff? There's no "maybe" but, "no" it. For our Uncle Sammy needs it in his So we're back of every gun And we're going to "Stop that Hun" if it takes the latest dollar that there is. How'd you like to be the Russian Bayoneted by the Prussian And despised of every kopeck, with four millions yet to pay? Dollars few or dollars many, Better pledge them every penny Reaping back the cultured kaiser and to help the U.S.A.

Ours to do it? Then it's done. Uncle Sammy needs the mon. Every time you lose a dollar, You can hear the kaiser holler.

## MYSTERIOUS FIRE IN TUFTS DENTAL SCHOOL

BOSTON, April 29.—The police were investigating the origin of a fire which early yesterday destroyed the Tufts college dental school building in the Back Bay district. Several hundred students are taking a special course at the school to prepare them for dental work in the army and navy. Firemen aided by students who live nearby, prevented the flames from reaching the adjoining building which houses the Tufts college medical school. Valuable scientific instruments and a quantity of platinum were recovered safely from the detail laboratories.

The college authorities said that the work of the dental school would continue in temporary quarters. The loss is estimated at \$50,000.

## PUBLIC RESERVE BUREAU WANTS MEN TO VOLUNTEER FOR FARM WORK

The U. S. Public Reserve Bureau wants 150 men to volunteer to work on farms during the whole of the coming summer or whatever part of it they may be able to. Mr. Otto Hockmeyer, local enrollment agent with headquarters at 119 Merrimack street, has received the following letter from William A. Gaston, director for Massachusetts:

Shipping is the nation's greatest need in the present crisis and your work as enrolling agent for the U. S. Public Service Reserve has been a very valuable contribution in supplying that need.

As fast as ships are ready, however, we must have food and munitions to fill them. Ships without food to transport are of no greater military value than food without ships for its transportation. A carload of Massachusetts grown food has nearly twice the value of a carload of food grown in the west, because of the great reduction in transportation, delay and expense.

But the Massachusetts farmer faces a short of labor which seriously handicaps him. The situation is rendered doubly serious by the intense competition of our many war industries which, in turn, are directly affected by the high cost of all food-stuffs.

And so we are asking you to take up the all important task of enrolling men for farm work in Massachusetts. No men are to be enrolled who are now engaged in farm work. This is an effort to add to the men now working on the farms a large number of men who can give from two to four weeks of their vacation to six months' continuous farm work during the present year.

Fixing wages or conditions of labor is not one of the functions of the Public Service Reserve. The county agricultural agents, whose offices distribute the labor thus obtained, inform us that the prevailing farm wage is \$2 to \$3 per day without board and \$30 to \$50 per month "found"—de-

## Says She Was As White As a Sheet

Dr. Williams' Pink Pills Brought Back the Color to Her Cheeks and Lips.

Rich red blood showing through translucent skin means not only beauty but health. When your color fades you will find that your heart palpitates on slight exertion and that your breath is short and you lack ambition. All these things are symptoms of an anemic condition, of thin blood.

Try building up the blood with Dr. Williams' Pink Pills. Eat nourishing food, exercise a little in the open air daily and watch the color return to cheeks and lips. If you are below your normal weight you should take on one or two pounds a week under this treatment.

"I was so pale that I was as white as a sheet," says Mrs. Elva L. Holland, of No. 24 Holmes avenue, Worcester, Mass. "I had become all run down, was subject to headaches and was irritable and nervous. I could not get a good night's sleep, was tired all the time and had but little ambition. Through the recommendation of my aunt who had used them with benefit I tried Dr. Williams' Pink Pills after other treatments had failed.

"While I was taking the second box I could notice a decided improvement. The headaches stopped and I could sleep better. Then the color came back to my cheeks and lips. Dr. Williams' Pink Pills are a fine tonic and I have no hesitation in recommending them."

The blood goes to practically every part of the body and if it is rich and red it carries health and strength to every organ. The digestion is toned up, the nerves are strengthened and aching muscles are made strong. Dr. Williams' Pink Pills are especially useful to run-down women who worry about their daily tasks and duties.

In spite of the increased cost of all drugs the price of Dr. Williams' Pink Pills has not been changed. Your own druggist can supply you or you can order direct from the Dr. Williams Medicine Co., Schenectady, N. Y., enclosing fifty cents for one box or \$2.50 for six boxes. Write today for a free copy of the booklet "Building up the Blood."

pending upon the experience and ability of the men.

As soon as the filled-in registration cards are received from you at this office, they will be redistributed to the different county agricultural agents, who will place registrants for this farm labor emergency in touch with the individual farmers who require farm help.

General publicity will be given to this farm help drive in the leading farm papers. The New England Homestead, for instance, carries a double spread next week. We will assist you in every way we can to give publicity to your enrollment work.

Boards of trade and manufacturers are being organized to co-operate with you. The colleges will have special faculty enrollment agents to enroll their students for farm work. High school boys and girls are also being enrolled.

Enrollment cards are being sent to you under separate cover. Please make your return of them to this office. The sooner these men are registered the quicker we can satisfy the farmer as to the acreage that he can plant and care for. Therefore, we ask you to start your work at once.

Your quota for Lowell will be 150. What we are trying to do is to save Massachusetts from a food famine next winter. Is there anything you can think of, except going to the front, that is of more value to the

nation than this service of getting an adequate farm supply this year?

## CONFIRMATION CLASS AT ST. ANNE'S CHURCH

The rite of confirmation was administered to a class of 75 at St. Anne's church yesterday morning by Rt. Rev. Samuel G. Babcock, suffragan bishop of Massachusetts. The congregation taxed the capacity of the church and all listened attentively to the interesting and instructive sermon delivered by the officiating bishop.

To those who had been confirmed the bishop spoke in part as follows: "When you were baptized you were enlisted in the army of Christ. Now you are mustered in. If you want to know what one of the first thoughts to enter your minds should be, I will say it should be a thought of preparedness. At Camp Devens a few days ago I confirmed a number of soldiers who are going to the front. There is one characteristic of all the men who are at that camp: they are preparing for the struggle, which they believe will end in victory.

"And there is a parable in this. It is for you to struggle with evil. You are all banded together under the standard of Christ. If we would be fit for the struggle we must make daily preparation. It is not enough to go into the world now and to forget what we have learned. No, we must not do that, but we must feel how we can best use the weapons against temptation which God has put in our hands; now we can do the most in the training camp of Jesus Christ.

"Every Christian should use the spiritual weapons placed at his disposal. Knowledge of the word of God is a wonderful thing. We all ought to read the Bible, especially the New Testament. I know of one who, if she did not read the Bible daily, would fall into utter despair. The word of God can help us to be good soldiers. We ought to cultivate that weapon we call prayer. Men talk of the power of physical might, but it is nothing compared with the communion with God. He comes into our lives through the medium of prayer.

"Don't forget the means of grace. Public worship in the church is most important. It is the corporate worship of the children of God. If you neglect this you cannot remain a good soldier. You must be regular in attendance at communion. You must do what you can to help those who need help. Those who are sick, distressed, who need sympathy and help of every kind—the Christian soldiers will give to them what they need.

"Be strong in the Lord. May God help you to be true. We thank God for this great confirmation class. Do not disappoint your fellow soldiers in the parish, but bring in the strength and power of the son of God."

Later, in his sermon, Bishop Babcock contrasted the works of Saints Peter and Paul, in their dedication of the resurrection. Paul was logical; Peter in his mind appealed on the basis of heart instinct. He speaks of hope, said the prisoner.

"What a great word 'hope' is!" he said. "Young life is naturally hopeful. As we grow older, if we retain the spirit of youth, then we retain the spirit of hope. Hope always looks for the sunshine after the storm."

"One of the characteristics of the age in which we live is that it has been devoted to mental culture. Before the war it was said that mental culture was the hope of the world. But it all depends upon what kind of mental culture it is. It is not to impart hope in the student of it, to my mind, we should beware of it."

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for cod liver oil.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain. Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

Such culture was that of Paganism. It is that of modern Germany. It is bud mental culture. Whenever we leave the hopeful atmosphere of Christianity and go back to the faith of Paganism we are doing the world an injustice. We are harming ourselves and our friends. Our ideals become other than those of Jesus Christ.

"This nation is at war, and it is with perfectly wonderful spirit that we entered this war. This war, with all of its sacrifice and its agonies, will yield better things for the race. We went into the war that humanity and liberty may be preserved. We have risked all that these may prevail. An army without hope of victory is a demoralized army. When men do their work without hope they do not do good work.

"In spiritual affairs we will have greater, nobler ideals of living than we have ever had before, if we have hope. All nature on such a day as this is full of the spirit of hope. The trees and flowers show they are hopeful, for the buds are coming out, the leaves are showing. But we are more than trees and flowers, and so should have a greater measure of hope.

"The highest and most important instinct is that of immortality. Every rational instinct tells us that the works of great men do not die, but that they live long after those men have left us. On the first Easter day of this war was born a living hope founded on the living, glorified risen Christ. It is a living fact. We are pilgrims with a living hope."

## HUSBAND AND BRIDE OF 3 WEEKS FOUND DEAD

CAMBRIDGE, April 29.—Mystery surrounds the death by gas of James E. Simpson and his bride, whose bodies were found yesterday in a room of the apartment in which they started housekeeping last Monday. Simpson was 22 years of age and his wife 19. They had been married three weeks.

Gas was flowing from a stove and from jets in the chandelier in the room where the bodies were found. A pocket searchlight was in the young husband's hand.

In the pocket of his coat was a card from the draft board at Newton, notifying him that he had been placed in class 1-A of the draft. An identification card said that in case of his death his father, who is in Nicaragua, should be notified.

Simpson formerly lived at the Newton Y.M.C.A. He was graduated from the Cushing academy two years ago, and had been employed as a bookkeeper by a State street firm in Boston.

Mrs. Simpson was the daughter of John L. Owens of Drayton Island, Fla. She had been studying at a school in the Back Bay section of that city. She formerly lived in Brockton and was graduated from the Brockton high school.

Last night the bodies were taken to a morgue, where they will remain until claimed.

## LIBERTY GARDEN BEING PUT IN SHAPE FOR SAGO-LOWELL EMPLOYEES

The 35-acre Liberty garden in Clark road and Andover street, which will be planted by the employees of the Saco Lowell shops in the course of the summer, is being put in shape and Saturday a big tractor plow started turning the ground over. As soon as the plowing is finished the land will be divided into lots, 50 by 100 feet, and shacks and tool houses will be built for the accommodation of the amateur farmers. It is expected that a great crop of vegetables will be raised on this farm.

## HONOR BAY STATE MEN

Continued

April 12, received medals, as did five men of another regiment who had participated in earlier fighting around Soissons. Here and there in the line of heroes were spaces representing Americans who were killed or wounded seriously.

104th Decorated as a Unit. It had been raining in the forenoon, but the sun broke through the grayish clouds when the 104th regiment, which also was decorated as a unit, passed in review before American and French generals. Bands played "The Star Spangled Banner" and "The Marseillaise" while the American and French flags waved proudly and defiantly within sound of the roar of German guns. The French general in conferring the decorations said of the regiment:

"It showed the greatest audacity and a fine spirit of sacrifice. Subjected to very violent bombardments and attacked by large German forces, it succeeded in checking the dangerous advance and took at the point of the

bayonet in a most vigorous way, prisoners and some demolished trenches from which it had fallen back at the first assault."

Cheers for Yankee Heroes. The few civilian spectators who witnessed the ceremony included several French women, residents of villages near the front. They cheered as the young Americans, wearing full equipment and helmets, marched by. Some Americans attached to other units were greatly moved when the band played the national anthem. They saw the bright new flag and realized why their comrades had been through to merit the honors. The general commanding the American forces shook hands with and spoke words of encouragement to each of the men decorated, saying it was the proudest moment of his life to be the commander of men who had done such great honor to the country.

List of Recipients of War Cross. The following members of the 104th regiment received the War Cross: The Rev. John Des Valles, Captains George A. Roberts, Edward J. Connelly, Walton S. Danker, Oscar A. Dudley.

Privates John H. Murphy, Joseph H. Blair, William R. Davis, Joseph J. Cannon, Clem L. Lane, Edward F. Fitzgerald, Alfred P. Lee, Charles A. Rippe, James M. Sharp, Carl H. Olsen, Joseph F. Campbell, Roland E. Cole, Walter L. Howland, Charles Knutsson, Harvey S. MacArthur, L. MacDonald, Hugh D. Savage, Robert C. Slattery, Harold E. Hohson, Rudolph P. Foster, Kenneth B. Page, Charles M. Dodge, Walter J. McCann, Alvin J. Blunden, George W. Day, Arlington C. Cullen, Glenn Hill, Joseph Hulub, William L. Kelleher, Obrey Huntton, Walter J. Lannon, James A. Olivier, Harold R. Sleeper, Luke B. Moran, Edward Britton, William G. Gaveny, Alfred G. Champagne, Max Levine, Ignas Perdenas, Herman C. Raynor, John Stefanick, Carl Zompetti, Carl L. Houghton, Richard S. Hull, George S. Irwin, John Robbi, Marcel Lajunesse, David Stambler, Harold K. Hanson, Egidio Donnissoni, Stanley Grezwacz, Earl P. Howe, Nicholas Waskewich, Richard M. Weissner, George W. Nelson, Ralph Dawes, William Houston, Robert E. Travis, William F. Wreck, Harold W. Ealey (Eetery), 104th regiment; First Lieut. Edwin D. Hopkins, Sergt. Dodge and Privates Jos. W. Johnson and Ernest W. Tosberg.

On April 10, 11, 12 and 13, the Germans attempted to break through the American position near Apremont forest. In the four days' fighting the enemy lost between 300 and 400 of his especially trained shock battalion of 500 men. Of this number 100 were killed. The Americans took 35 prisoners.

YANKEES IN BATTLE. Continued. A fire which in some cases was rather heavy, the American gunners took up the positions of the French batteries and completed the work of digging in. When the infantry moved in, the fighting was just as intense. In some places, our troops, after passing through villages, were raked now and then with shrapnel. In several instances they found the trenches shallow, while in other cases, there were no trenches at all. By this time the

positions have been improved greatly and the shell holes connected. Americans Confident. The American lines generally are about 200 to 400 yards apart and the high ground is about evenly divided. The American forces are confident that under the efficient direction of the French, although the tasks ahead may be difficult, they will give a good account of themselves and strike the Boche a blow if opportunity offers.

It should be understood that this sector is not especially active in comparison with others to the north, although it is more active than those the Americans have previously faced. The artillery firing is heavy and intermittent, the German shells whizzing over the lines into towns in certain rear areas.

Americans Close to Enemy Lines. There has not been a raid on either side of the line for several days but at night the patrols are active, Americans approaching close to the enemy's lines. All during the nights rapid machine gun and rifle fire indicate where the American bullets are keeping out enemy patrolling parties.

The march from the billet bases to the line was very impressive. Many units started off with the strains of The Star Spangled Banner, played by regimental bands, in their ears. At one place the fun must have reached the German lines, so close was the band, the gun flashes being reflected on the instruments. The constant roar of artillery was deafening as the Americans, marching as if on parade, disappeared down the roads past the American batteries, which were sending many shells into the enemy lines.

LOWELL HIGH DEFEATS MATTY DECLINES OFFER TO GO TO FRANCE

In a contest that had all the aspects of a 50-50 affair with the happy exception that Lowell won, 5 to 3, Dorchester high was humbled by the Kirk Street men at Spaulding park Saturday afternoon in the first home game of the season.

In the matter of hits, errors and general playing ability, both squads were on practically even terms. Were it not for a ground scraping catch by Captain Mansur in the second stanza, which blasted the hopes of two visiting pitchers, the game might have gone into extra innings with the final figures showing no superiority for either nine. However, Mansur was evidently in a hurry to get home, for when Gormley hit a Texas leaguer to right in the second, he left with two men on the racks, the speedy captain stuck out his glove and provided a safe resting place for the spheroid. Never after did the visitors break through the Lowell barrier.

Orday was in the box for Lowell and showed material evidence of the speed and things which had been said about him in the few innings he pitched last Wednesday against Mitchell Boys' school. He had steam, variety and stamina. One noticeable defect which will wear off in the refining process of experience was his persistence in including in an elaborate windup with men on bases. A team a little more open to its opportunities than Dorchester would have chalked up a record number of stolen bases as a result of the Lowell twirler's preparations, but the visitors were unwilling to indulge Warren in the points for Dorchester and was touched up for eight hits in his six innings work. Augusta succeeded him and held Lowell hitless for the remainder of the game.

Dorchester looked "big" in the first inning when three runs came over the platter. After Lederman had struck out, Walkins singled to right and then stole second. Walsh, died to Cahill and then came three passes in succession, thus forcing in Walkins. Sammon singled to left with two more tallies counting. This ended the damage.

The visitors got "pasty" again in the second, with Lederman and Walkins singling. Walsh grounded to Orday and then Gormley gave Mansur a chance to do his circus stunt and prevent further trespassing.

Lowell got two in the fourth on a sacrifice bunt, and Cahill followed by a three-bagger to left from Sturtevant's baton. In the sixth the local men sewed up the game when Lawler walked, took second on a passed ball and came home on singles by Cahill and Sturtevant. Birkenhead walked and two more runs came in when Broman singled. This ended the tallying.

Notes of the Game

Next game Wednesday with Walcott high at Spaulding park.

Orday is only a freshman but he has all the earmarks of a corner.

Lederman, who played at short for Dorchester, looked for all the world like a Shorty.

There isn't the least doubt but what Lowell owes the game to Mansur's printing ability. A moderately fast pitcher would never have caught Gormley's fly in the second.

Spaulding park looked as familiar as ever with the exception that there is about five yards of fence missing down in the right field corner.

ABANDONS HIKE FROM COAST TO COAST

Charles H. Donnelly, the noted pedestrian, who announced last week that he would start today on a hike from Portland, Me., to San Francisco, Cal., has abandoned the trip on account of the war. With the money he had saved to pay the expenses of the trip, he will buy a Liberty bond. Mr. Donnelly, who was born in Lowell, and lived here for many years before going to North Adams, Mass. to make his home, is back to the scene of his early days, where he expects to stay indefinitely. He came to Lowell last week to visit his brother, before making the continuing trip. While he came to the conclusion that with the country at war, his duty was to do all in his power to help beat the Kaiser. While it was and still is his ambition to walk from coast to coast, he feels that this is no time for such affairs, and consequently he changed his plan. Donnelly is a mile splitter of grade, and he secured a position in one of the local mills, where he intends to continue at work until the Kaiser and Stripes are tacked on Stairs Bill's flag staff in Berlin.

FRESH EGGS

Cheaper eggs in the winter time. Store them now, at present prices and eat them when the price is high. They will be perfectly taken care of if preserved in a solution consisting of one of our cans of water glass added to eleven quarts of water, according to directions. This amount will take care of 15 to 20 dozen eggs.

NEED MORE MEN

Need Men to Fill Gaps

"In addition to those already called to the colors," says the statement, "and those in training at our cantonments already selected for service, very large quotas will be required in the immediate future to fill the gaps."

In this connection, the review points out that the enemy is seeking a decision that will end the war and the outcome of the present operations depends upon man power.

The statement mentions the attack on American positions at Seicheprey, northwest of Toul, Here, on April 20, the French, the Germans swept over American lines in a front of three kilometres, but subsequently gave up the ground occupied.

The statement says further:

"The Germans are relying principally on rifles, machine guns, mortar and carefully thought out methods of transportation and supplying millions to the front of attack under all conditions which means that they have developed mobility of offensive action that can only be met by counter measures of equal potency and flexibility."

Series of Crises

"A battle of such magnitude as the one being fought in the west cannot be decided by any single engagement, yet there arises a series of crises on which the ultimate outcome depends. These crises have, up to the present in a large measure resulted favorably to the British."

"The vigorous attacks driven against the British line were intended to paralyze the independent will power of the British command. In this the enemy has failed. Unity of command of the allies has extended operations in the broader field of general engagements in which all the allied forces will henceforth be used interchangeably."

Allied Forces United

"This change in the combat situation has materially altered the moment of decision of the offensive. Instead of the enemy being able to defeat the British army and then turn its full energy against the French, the allies are now to oppose their full united strength to the hostile attack."

"It is not difficult to follow the strategic conception of the German higher command. An enveloping movement is outlined which on the one hand is force the retirement of the British from Arras and if wholly successful result in the capture of both Arras and Amiens; on the other by the occupation of the important heights of Kemmel, to wipe out the Ypres salient and throw the British line back of Hazebrouck and Poperinghe."

In the south the thrust towards Amiens has been continued. The British are holding firmly in the face of furious assaults.

"In Flanders the situation is less satisfactory. Last week the Germans drove a strong thrust against the segment of the line held by the Belgians. This was well met and the enemy was unable to make any headway."

"After a delay during which the Germans replaced their depleted units and brought up supplies and munitions, another principal assault was launched with Mount Kemmel as its objective. The enemy was able to capture Dramoutre, gain the summit of Kemmel and reach Looze. Fighting continues in this area with undiminished stubbornness and the advance of the enemy has not been definitely checked. The loss of Mount Kemmel is a serious menace to the British dispositions in Flanders."

# CAMP NEWS

## PERMANENT HEADQUARTERS ORGANIZATION TO BE QUARTERED AT CAMP DEVENS

CAMP DEVENS, April 29.—First definite news that a permanent headquarters organization is to be quartered at Camp Devens when the 7th Division leaves—wherever that may be—came in an order yesterday from Washington assigning Maj. Rupert A. Dunford as permanent adjutant at this cantonment.

Maj. Dunford is a regular army officer of 13 years' service, coming from Utah. Before going to West Point he served in the 1st Cavalry and was a private in the Spanish-American war. He is a graduate of the army signal school and has been service in the canal zone. He will probably have a fairly large staff for the administrative work in a camp which more than likely will be a recruit depot.

The biggest visiting crowd in months was in the sightseeing fete yesterday. Early arrivals saw an inspection of the 30th Engineers and all the other engineering outfits in camp by Col. Lytle Brown, U.S.R., from Washington. Maj. J. Edward Cassidy, marched his Rhode Island unit to Cavalry Plaza, opposite the main entrance, with his cool wagons, trucks, touring cars and the heavily laden pack animals performing for the inspector and the Sunday visitors for two hours.

Another unexpected Sunday attraction was the arrival of draftees from Division 13, Boston, two days late, 45 whites and 10 colored recruits, leaving 2200 more Massachusetts draftees to come in to complete this draft of \$810. One Providence draftee, Vincent Roderick, brought in as an alleged draft evader, had three broken ribs and many minor injuries received in an auto accident just before reaching camp. With him were Samuel Brown

of the Rhode Island state police and a friend, both slightly cut when the machine ran into another car. They were treated at the infirmary, given \$50 for bringing Roderick, and the latter was sent to the base hospital.

The first big Sunday ball game in camp between the Fiske Red Tops and Devens wasn't nearly so exciting as a game between white and colored soldiers. The Florida draftees are lively on the diamond than any other men in camp and their vocal playing is worth coming far to hear.

A colored draftee from Springfield Saturday put down his occupation, "prize fighter." He is Robert ("Bob") Lee.

One warmly welcomed visitor was Maj. C. P. George, adjutant of the 5th Artillery Brigade, in which the 101st, 102d and 103d Artillery Regiments from New England are a part. Maj. George is home on sick leave and has high praise for the New England artillerymen in France. For publication he would say only that our men are "giving a good account of themselves."

Maj. Cecil Stewart was given an honorary discharge yesterday from Washington. Maj. Stewart was a retired regular army officer called back to service at the outbreak of the war and did much of the organizing here.

Pneumonia caused the death of another colored draftee yesterday, Private Junius Artes of Deland, Fla.

## PRIV. ALFRED CHAGNON RESIDENT OF LOWELL

Private Alfred H. Chagnon, whose name appeared in the list of casualties published in Saturday's issue of The Sun, as having been slightly wounded in France, is a resident of this city

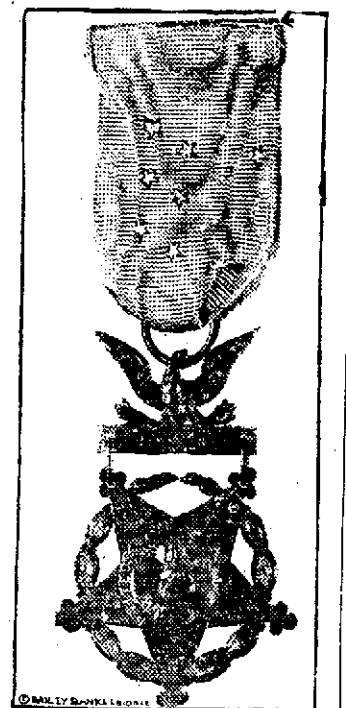

PRIVATE ALFRED H. CHAGNON.

and the son of Alexandre Chagnon, of 7 Hereford place, off Marshall street. The young soldier has two sisters in Lowell, Mrs. George Beauregard and Mrs. Omer Larocheville, while he has a brother in the service, Corp. Charles S. Chagnon of the 302d Field Hospital

camp at Ayer, who received his stripes two weeks ago.

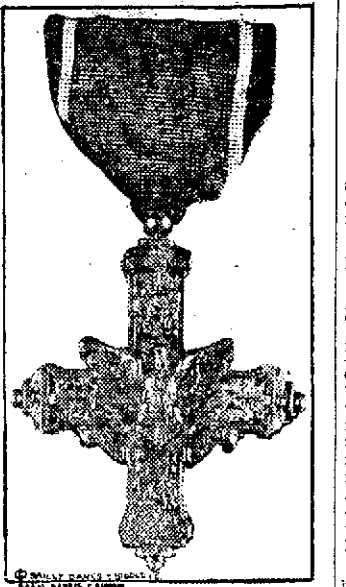

Private Alfred H. Chagnon enlisted in Company A, 30th Engineers, 1st and Maine regiments in Connecticut last November. He was assigned to Fort Slocum, where he remained in training until December at which time he sailed for France. He is 21 years of age and is well known in this city, where he was born and brought up.

## THESE ARE UNCLE SAM'S WAR CROSSES

THE MEDAL OF HONOR

This is the highest award of the United States. It is presented for distinguished gallantry in battle or for heroism of an especially distinguished character not in the regular line of duty.

THE "D.S." CROSS

The Distinguished Service Cross was recently authorized by the president. It is for heroism under circumstances which do not justify the Medal of Honor.

## FUNERALS

ADAMS—The funeral of Julius T. Adams, Jr., was held from the home of his parents, Mr. and Mrs. Julius T. Adams, 41 Everett street, Saturday afternoon. The services were conducted by Rev. Arthur C. Archibald, pastor of the First Baptist church. Appropriate selections were sung by Mrs. Charles S. Young. Delegations were present representing the New England Order of Protection and Gen. ## THE DAY'S NEWS AT CITY HALL

Bids for 100 tons of Bell & Spigot 6-inch and 8-inch pipe for the water department have been received by Purchasing Agent Edward H. Foye, but the contract has not yet been awarded as there is a question of shipment involved. The lowest bidder was the Warren Foundry and Machine company of Boston, whose bid was \$56.90 a ton, while the Donaldson Iron company of Emmaus, Pa., sent in a bid for \$57 a ton. The former company states that it will not be ready for shipment before three or four weeks, while the other company does not mention anything about shipment. Inasmuch as there is a difference of only 10 cents a ton between the two bids, the company that can furnish the material in the shortest time will be awarded the contract. There was another bidder, the R. D. Wood company of Philadelphia, whose bid was \$63 a ton.

Mr. Foye has also received bids for hauling tar for the street department, six companies sending their bids. The bidders were the American Tar company and the Barrett Manufacturing company, and both bids were for 15 cents a gallon, this including the transportation and spraying. The contract has not yet been awarded.

**Sewer Work**  
Commissioner Morse stated this morning that he has two big sewer jobs now going on, the Varium avenue sewer for the contagious hospital and the Stockpole street sewer for the addition to St. John's hospital. The commissioner has about 70 men employed on both jobs and he states there is room for many more.

A general shortage of help is being felt in the street and sewer department. At present there are about 215 men on the streets and sewers payroll against 300 and 350 about two weeks ago. Mr. Morse is putting to work all the good men he can reach. This morning the paving of Appleton street was resumed, but this year's part of the job will cost a good deal more than last year, for the pavers will receive \$5 a day against \$4.50 last year, while the rammersmen will be paid \$4 a day against \$3.50 last year. The commissioner expects to wind up on Appleton street in a few weeks.

**Mayor Is Invited**  
Mayor Thompson received an invitation this morning to review the Memorial day parade with the other city officials.

BOY SCOUT CAMPAIGN FOR SUBSCRIPTIONS TO THE THIRD LIBERTY LOAN

The White House, Washington.  
March 14, 1918.

My Dear Mr. Livingstone:  
Will you again muster the full strength of the Boy Scouts of America for co-operation with the Treasury department in securing subscriptions for the third Liberty loan? As in the two previous campaigns, it is desired to have the Boy Scouts of America serve as "gleaners" in a house-to-house canvass after the "reapers" gleaming during the days set aside for your special campaign.

The patriotic and effective service of the Boy Scouts in your definitely worked out program of war work activities is a splendid testimonial to the value of organized boyhood in helping our country win the war.

It is my earnest wish that every troop of Boy Scouts and every scout and scout official take part in your war service activities and especially in these Liberty loan campaigns. Not only is this of practical service to our country in these critical times, but it is of great educational value to the boys in preparing them for the responsibilities of citizenship.

Sincerely and cordially yours,  
WOODROW WILSON.

Mr. Colin H. Livingstone,  
President, Boy Scouts of America.

In response to the call of the President of the United States conveyed in the above letter to Colin H. Livingstone, president of the Boy Scouts of America, the Lowell Scouts will start on their campaign for subscriptions on Saturday, April 27.

Scouts are to solicit subscriptions made out on the special blank provided by the U. S. Government and then take them to the bank and then see that their customers follow it up with their first payment before May 4.

No Scout is to receive any money on account of the payment or any charge for his services. Arrangements can be made with certain banks for weekly payments as low as \$1.00, which enables everyone to be a partner in helping to win the war.

Any person not able to get away from their home or who may be overlooked, call up the Scout Executive, Alex. Williams, telephone 30, and arrangements will be made for service.

"Be Prepared." "Do your good turn daily."

First Quota of Second Draft Left  
Today With Total of 157 Men  
—Crowd at Depot

Lowell sent away another contingent of her sons to Camp Devens this morning as her first quota of the second draft. At the time that the last increment left the city it was understood that they formed the first section of the second draft, but this was later denied by the officials at Washington. The men who made up the quota going away at that time have

been termed members of an "emergency" quota.  
There was nothing of a formal nature associated with this morning's departure. The men gathered at their respective exemption boards shortly before 9 o'clock and after receiving final instructions and a word of cheer from the officials, made their way to

## SHIP WITH AMERICANS ON BOARD TORPEDOED

Party of 57 Y. M. C. A. Workers  
Rescued When Ship Was At-  
tacked—Sank in 12 Minutes

LONDON, April 29.—A party of 57 army Young Men's Christian association workers under Arthur E. Hungerford arrived in London last night. The ship on which they sailed was torpedoed yesterday morning and sank in 12 minutes. All the passengers and all but three of the crew were saved. The passengers were picked up in lifeboats and landed at a British port. The Americans are all safe and well. On their arrival in London they were taken in charge by the American Y. M. C. A. and Red Cross.

The number of persons on board the vessel was about 500. One of the ship's officers told the Associated Press that the Americans had conducted themselves in an admirable manner. They were the better able to do this because they had spent most of their time aboard the ship in military drills and daily and nightly lifeboat drills.

Destroyers were sent immediately to the rescue and all the lifeboats were picked up within half an hour. The vessel was struck amidships while proceeding at about 10 knots in a large convoy under the protection of a number of destroyers in bright moonlight. There was an immediate heavy list and three minutes later the boilers blew up, extinguishing the lights all over the ship.

"The Americans behaved like veterans and were of the greatest assistance in launching the lifeboats and handling them," said one of the officers of the ship. Two of the members of the crew who lost their lives were caught below and went down with the ship. The third man was the ship's baker, who after reaching his lifeboat station went back for his money.

The discipline on board the ship was excellent. The time was well spent in launching the lifeboats successfully. Most of the Americans have little clothing and no baggage. Several of them lost their passports and all their money.

The submarine was not seen when the vessel was torpedoed, but several survivors told a story of a porpoise

WITH THE AMERICAN ARMY IN FRANCE, Sunday, April 28. (By the Associated Press).—The French army today paid an historic tribute to the United States when 122 soldier sons of Massachusetts were decorated with the War cross for bravery displayed in recent fighting. The ceremony, which was held on a picturesque field a short distance from the front line trenches, was one of the most impressive in which American soldiers had participated since their entry into the war.

WITH THE AMERICAN FORCES IN NORTHERN FRANCE, Sunday, April 28. (By the Associated Press).—American troops have taken up positions on the French battle front. Under the French high command, in which all ranks have supreme confidence, the American forces face the enemy on the line barring the Germans from Paris and Amiens, where they have been a certain number of days.

The Americans, on entering the line, found their position in a rolling terrain. The artillery was the first on the line, firing on a dark night, which was made red by the continuous flashes of friendly and hostile guns. Under

## CRUCIAL TEST OF ALLIED HOLDING POWER AT HAND

New Phase of Great Drive in  
Flanders — Germans Open  
Heavy Bombardment With  
High Explosive Gas Shells on 10  
Mile Front—Big Battle Raging

The Germans today began what seems to be a general assault on the British hill positions on the Kemmel front southwest of Ypres, opening a new phase of the great drive in Flanders. Apparently the crucial test of the allied holding power in this area is at hand.

The preliminary bombardment, started in the early morning, took in a 10-mile front from Mejeren, west of Baillieu to Voormezele, two miles south of Ypres. Infantry attacks in this area developed shortly afterward and the battle appears to have been on in earnest when Field Marshal Haig's report was issued in London at noon.

Strike With Great Fury  
The enemy has been striking with great fury. Voormezele for the past two or three days, evidently hoping

to drive in behind Ypres and break up the orderly withdrawal of the British from the further portions of the Ypres salient which they have been evacuating. Gen. von Armin has been successfully held off from this southern bulwark of the salient, but meanwhile he has been preparing to take advantage of the success he won last week in the capture of Mount Kemmel, which he was unable to develop immediately because of the stiff allied resistance.

Great Thrust Near Loere  
Further attacks in the Voormezele sector may accompany the delivery of today's blow, but the greatest force of this thrust seems likely to manifest itself in the vicinity of Loere, where Scherpenberg, Mont Rouge,

## NEW ENGLAND LIBERTY

## LOAN TOTAL

BOSTON, April 29.—Liberty loan subscriptions in the Boston Federal Reserve district totalled \$196,657,650 today with the tabulation of Saturday's returns amounting to \$12,633,000. New Hampshire today exceeded its Liberty loan allotment by more than a quarter of a million dollars.

The report by states was: Massachusetts, \$122,400,000; Connecticut, \$29,042,000; Rhode Island, \$18,303,000; Maine, \$11,623,000; New Hampshire, \$14,065,650; Vermont, \$6,319,000.

The official figures for Vermont, which reported to the New England general committee on Saturday that it had over-subscribed its allotment, had not been received at the Federal Reserve bank here today.

Charles A. Morse, governor of the Federal Reserve bank and chairman of the New England Liberty loan committee, called upon the savings banks in the district for subscriptions today.

In reminding the banks that the loan was lagging, Mr. Morse said: "The savings banks of New England have not as yet subscribed in any substantial amount, and it is the opinion of the Liberty loan committee of New England and the governor of the Federal Reserve bank that savings banks should subscribe a minimum of 2 per cent. of their deposits to the third loan. There are no indications yet of large withdrawals by depositors than in previous loans, although some have feared there might be, owing to the higher rate of interest on the present loan.

"The immediate situation is such that the loan can go through to success only if New England awakens."

## CRUCIAL TEST

Monte Note and other eminences are the enemy objectives. The French, who are holding the line at Loure, fortified themselves late last week by clinging to this village, although more than once driven out by savage thrusts.

## Bombard Lys Front

Another attack which was launched there yesterday afternoon was promptly repulsed. Probably to mask their real purpose, the Germans last night heavily bombarded the southern portion of the Lys battle front, from Givenchy to Nieppe wood and likewise turned their artillery loose on the front between Lens and Arras, farther south. No infantry attacks have been reported in these sectors, except on the part of the British, who by a successful coup last night re-captured the post taken from them last week near Festubert, north of Givenchy.

## French Break Up Attack

As in the case of the last previous heavy assault in Flanders, the Germans have also been demonstrating on the Somme front, although not in such force as was the case last week. They drove several times last night at the French positions in Hangard wood, however, and heavily bombarded this sector north to Villers-Bretonneux. The infantry attacks were broken up by the French fire and the allied artillery vigorously answered the German guns in this region and between Lassigny and Noyon, on the lower side of the Montdidier salient.

## Haig Given Up Hill 60

Northeast and east of Ypres, Field Marshal Haig has withdrawn his lines to Vertorenhoek and Hooge and has given up famous hill 60, south of Ypres. On the south the British hold Voormezele after two days of the most bitter fighting, so that the Germans are still two miles from ruined

Types, which is being bombarded heavily, especially with gas shells.

## Artillery Activity in Picardy

In Picardy there has been no activity except by the artillery, the German cannon being very active on the front east of Amiens from Villers-Bretonneux to the Luce river. The French official announcement last Wednesday that American troops were now aiding the British and French in holding up the German advance toward Amiens, is confirmed in an Associated Press despatch direct from the New American positions.

## Huns Bombard American Positions

The German artillery is most active on the Toul sector, keeping up an intermittent fire against the American positions. It is believed the Germans hope by this show of activity to prevent the movement of American troops to the northern part of the western front.

## Reported Revolt in Petrograd

Despatches from Petrograd and Moscow, each dated Tuesday last, give no indications of the reported revolt in Petrograd on behalf of the former Grand Duke Alexis Nikolaievitch. Swedish newspaper correspondents in Finland continue to report rumors that Alexis has been proclaimed emperor and that the new government will not be bound by the Bolshevik-German peace treaty. It is declared disorders were reported in Russia Thursday.

## Red Guard Forces Cut Off

Meanwhile the Germans and White Guards are rapidly approaching the Russian border north of Petrograd and the dissolution of the Red Guard revolt is said not to be far off. The two largest Red Guard forces have been cut off from each other, and the capture of Viborg, 75 miles northwest of Petrograd by the Germans, is expected shortly. Communication between Viborg and Petrograd has been severed.

## Turks Captured Kars

In Transcaucasia the Turks continue their forced occupation of territory ceded in the Brest-Litovsk peace treaty. In the capture of Kars, guns to the number of 860 were taken, Constantinople says.

## Holland Yields to Germany

The controversy between Holland and Germany, it is reported unofficially in a despatch to London, has been settled by Holland agreeing to the transport of sand and gravel through Dutch territory from Germany to Belgium. Holland is understood to have stipulated that the amount of sand and gravel used in making concrete must be limited and cannot be used for military purposes. Rumors in The Hague are that Foreign Minister Louzon will resign as a result of the passing of the diplomatic crisis.

## British War Report

LONDON, April 29.—The Germans this morning opened a heavy bombardment with high explosives and gas shells on the entire front between Meppen and Voormezele, south and southwest of Ypres, the war office announced today. Infantry attacks developed shortly afterward.

An enemy attack which developed yesterday afternoon in the vicinity of Loere, west of Mont Kemmel was repulsed. There was great activity by the hostile artillery during last night from the river Scarpe, opposite Arras, south of Lens, and between Givenchy and Nieppe wood, on the southern side of Lys battle front.

The post near Festubert, north of Givenchy, taken by the Germans last week, was recaptured by the British last night. More than 50 prisoners were taken here and other prisoners and four machine guns were brought in as a result of raiding operations in sectors farther south.

The text of the statement reads: "The hostile attack reported devel-

oping yesterday afternoon in the neighborhood of Loere was repulsed by rifle and machine gun fire.

A heavy bombardment with high explosive gas shells was opened by the enemy this morning on the whole front from Meppen to Voormezele and infantry attacks are now developing.

"The hostile artillery has also shown great activity during the night from the river Scarpe to Lens and between Givenchy and the forest of Nieppe."

"By a successful enterprise carried out by us last night the post in the neighborhood of Festubert, captured by the enemy on the night of April 26-27, was recaptured by us, together with over 50 prisoners."

"A number of prisoners and four machine guns were also secured by us in a successful raid south of Albert and in the neighborhood of Nouville-Vitasse."

## French War Report

PARIS, April 29.—The Germans made several attempts last night to advance on French positions in Hangard wood on the front before Amiens, but were checked by the French fire, the war office announced.

The statement follows: "During the night the Germans attempted several times to attack the French positions in Hangard wood. Our fire checked all their efforts. There was great activity of the artillery on both sides between Villers-Bretonneux and the Luce river and in the region between Lassigny and Noyon."

"A German raid north of Seimmar was without result. French detachments penetrated the German lines in the vicinity of Corbigny, near Courcy, on the right bank of the Meuse and in upper Alsace, bringing back prisoners. There was very heavy artillery fighting at Fosses wood, and Carrières wood, (Verdun front)."

"On the remainder of the front, the night passed in quiet."

## Activity in Toul Sector

WITH THE AMERICAN FORCES IN FRANCE, Sunday, April 29.—(By the Associated Press)—There was increased artillery activity on the Toul sector today. At dawn the Germans began a heavy barrage against part of our line. This was accompanied by intermittent machine gun and rifle fire.

The enemy's activity is taken to mean that he is striving to keep the Americans busy so they cannot be sent north.

## BRITISH SEND UP S.O.S. SIGNALS

LONDON, April 29.—The British troops around Ypres several times after dawn this morning sent up S.O.S. signals for artillery support, telegraphs the Reuters correspondent at the British headquarters in France. Although no definite report of an infantry attack in this region has yet been received, the correspondent adds, the tremendous German bombardment points to the certainty of a German attempt to advance.

## HUN ATTEMPT TO TAKE YPRES

WITH THE BRITISH ARMY IN FRANCE, April 29.—(By the Associated Press)—The fourth German army this morning heavily attacked the allied front in Flanders. Prisoners captured have admitted that the German intention is to attempt to capture Ypres. Severe fighting is reported in both the French and British areas. The attack extends over a front of about 15 miles. The Belgians on the Yser front also are reported to have been attacked.

## INTENSE BOMBARDMENT IN PROGRESS

LONDON, April 29.—(To Reuters Ottawa agency)—An intense bombardment from artillery concentration is in progress from La Bassée to south of Honholt forest and from Vimy to Lens.

## RISKS LIFE TO SAVE WARSHIP

WASHINGTON, April 29.—How John MacKenzie, chief boatswain's mate in the naval reserve by extraordinary heroism, saved the converted yacht Remik, on patrol service in European waters, was told yesterday in an announcement by Sec. Daniels that the navy department had awarded MacKenzie the medal of honor and \$100.

During a heavy gale Dec. 17 a depth charge weighing several hundred pounds broke from its fastenings at the stern of the Remik and went sweeping about the deck.

The safety pin fell out of the charge, making it a source of serious danger to the vessel and crew. MacKenzie shouted, "Watch me, I'll get it," and dashed down the deck, plunging himself upon the charging cylinder.

Three times the seas tore it from him and once it almost crushed him. On a fourth attempt he got a firm grip on the cylinder, heaved it upright on one flat end and held it until lines could be run to him and he and the bomb safely lashed.

The Remik's commanding officer, in reporting MacKenzie's act, said: "Had this depth charge exploded on the quarterdeck, with the sea and wind that existed at the time, there is no doubt the ship would have been lost."

Before the war MacKenzie served four years in the regular navy. He is a native of Massachusetts. His mother, Mrs. Mary MacKenzie, lives in South Hadley.

## BREST-LITOVSK TREATY DENOUNCED IN RUSSIA

LONDON, April 29.—The newest Russian government in Petrograd, according to the Aftonbladet of Copenhagen, says an Exchange Telegraph despatch, has denounced the Brest-Litovsk treaty with Germany. It calls for a new treaty, with Estonia under Russian rule.

A despatch from Reuters correspondent in Petrograd, dated Wednesday, April 24, and received today, contains no mention of the changes in the Russian government that have been reported from Scandinavian sources.

An Associated Press despatch from Stockholm Sunday, reporting rumors that former Grand Duke Alexis has been declared emperor of Russia in a counter revolution, added that the new government would refuse to recognize the peace treaty with Germany. Estonia borders on the southern coast of the gulf of Finland and extends from the gulf of Riga to near Petrograd. It has been reported that Emperor William was to become Duke of Estonia and that Estonia was to be closely allied to Germany.

## WOOD'S BUSINESS COLLEGE HELD ANNUAL BANQUET AND HEARD INTERESTING ADDRESSES

The annual banquet of Wood's Business college was held at Grafton hall Saturday evening, and was enjoyed by about 100 of the day and evening pupils. It was a respectable gathering of young people who are working hard to fit themselves for their life work.

A very palatable menu was provided with roast turkey as the chief dish among the viands. The party sat down at 8 o'clock and at the conclusion of the dinner Mr. John J. Brennan, chairman of the committee on arrangements, made a congratulatory speech complimenting the audience on the program, and Principal Wood on the success of the school. He then introduced the various speakers and participants in the program, which were as follows:

Chorus, "Over Here" song Miss Maureen Quinn; address on Liberty bonds, Henry A. Smith; piano solos, Misses Sadie and Lillian Sullivan and Helen A. Hart; address on War Savings stamps, Richard Brabrook Walsh; chorus, "After the War Is Over" song, May O'Kiley; violin solo, Mae Robinson; song, Miss Harriet Moran; address on Knights of Columbus war activity, Charles Landers, district deputy; chorus, "So Long, Mother" song, Walter Mack; remarks, Elliott F. Wood, principal; "Star Spangled Banner."

This school is soon to put out a

service flag, as several of its members have gone to the front in France.

## VILLAGES CHANGE HANDS MANY TIMES

WITH THE BRITISH ARMY IN FRANCE, April 29.—(By the Associated Press)—Hard fighting continued about Loere and Voormezele, but elsewhere yesterday was a day of rest for the infantry as a whole.

The battle for Loere and Voormezele has been most desperate. Both places have changed hands several times in the past 24 hours, and at the latest reports it was an "even break" for the British were in possession of Voormezele, while the enemy seemed to have succeeded early in the day in getting a foothold in Loere again.

An engagement north of the Ypres-Comines canal was in progress throughout most of the night with the British holding doggedly and inflicting heavy losses on the attacking troops. The German casualties on this part of the front have been very severe.

The German artillery yesterday was smothering the ruins of Ypres in gas. Loere has changed hands at least five times since Friday. The Germans forced their way into the village after a sanguinary battle Friday, but were thrust out by a French counter-attack that night. Saturday in the forenoon the enemy again attacked heavily and recovered the village only to lose it when the French countered in the afternoon.

Yesterday morning's assault was delivered about 4 o'clock and while the Germans apparently had gained an entrance their tenure was being hotly contested.

A similar fight has been waged for Voormezele. The Germans retook the hamlet Saturday night, but were able to hold it only a short time.

## TWO ROANE BROTHERS ENTERED THE SERVICE OF UNCLE SAM TODAY

Two sons of John F. Roane of 88 Chapel street, the well known letter carrier, entered the service of Uncle Sam today. John F. Roane, Jr., proprietor of a confectionary store in Gorham street and well known as a singer, left this morning to report for active duty at Boston in the naval reserve, and James Roane, better known as "Roundy," and a star athlete of the local high school for a number of years, went to Camp Devens as a recruit for the national army.

# 50 WOUNDED AMERICANS HOME TO BOOST LOAN

AN ATLANTIC PORT, April 29.—Fifty American soldiers, most of whom have been wounded or gassed, have been brought to this port from France by order of President Wilson to take part in the Liberty loan campaign, according to an announcement made by the military authorities here yesterday.

The party, comprising enlisted men representing all branches of the army and commanded by Regimental Color Sergeant John J. Heffernan, arrived here on a transport Saturday night.

Six of the men wear French war crosses awarded for gallantry in action and all wear the gold "V" for foreign service. Many show by insignia on their right arms that they have been wounded.

Americans go into battle cheering and waving their hats, said Heffernan in describing conditions at the Franco-American front.

## NUX IRON PEPSIN and SARSAPARILLA — Effective Spring Medicine Combination.

As comprised in Hood's Sarsaparilla and Pepsin, taken in conjunction, these valuable remedies possess unequalled value for the quick relief of a long train of ailments common in the Spring season. You know well the great tonic properties of iron. They are much increased and improved in this combination—Hood's Sarsaparilla before meals and Pepsin after.

In these days of rushing and pushing, beyond the endurance of even the most robust, nearly every man and woman needs this blood-purifying, cleansing, up-building in the Spring. If it is not supplied, the depletion of the blood and the broken-down nerves may soon give way to permanent ill-health.

If a cathartic is needed, as where there is biliousness or constipation, Hood's Pills should be taken. They are purely vegetable, do not irritate.

but they don't believe we are in it yet."

Heffernan drew a gloomy picture of what the agriculturist in France will encounter after the war, asserting that there are many unexploded shells in the fields and the farmer who plows them won't find his life worth anything.

In Sgt. Heffernan's party was a 19-year-old boy, Corp. Osborn de Varilla of San Francisco, an artilleryman, who, his companions claimed, was the first American to fire a shot at the Germans last October.

De Varilla's gun was aimed at a communicating trench in the German front line and when his captain gave the word, 18 pounds of shrapnel went screaming over 400 yards of No Man's Land.

"I felt pretty good when that old shell went sailing over the hill," de Varilla admitted.

The corporal said the Germans made their first raid in his sector on Oct. 31, and that it was after this raid that the body of an American soldier was found in front of the wire with his throat cut from ear to ear.

## NO ROOM HERE FOR IDLER, SAYS ENDICOTT

BOSTON, April 29.—The necessity that every available man be employed in some capacity in order that the war may be won was urged in a statement issued last night by Henry B. Endicott, executive manager of the state police safety committee, and James J. Phelan, one of the members.

"There should be no room in this country today for the idler who is physically fit to work," said the statement. "If you don't have to work for the maintenance of yourself or your family, your duty is to work, nevertheless, for the maintenance of your liberty, that this, your form of government—the best in the world—shall endure to the end."

"To the boys who will shortly leave their high schools, preparatory schools and colleges for periods of from two to four months' vacation, we would suggest that you take the best vacation you ever had by getting a job."

## ABRAM FENTON PASSED AWAY YESTERDAY

Abram Fenton, a widely known resident of this city, died at his home, 26 South Loring street, yesterday afternoon. He was born in Woodstock, N.

ABRAM FENTON

By Oct. 13, 1841, and on March 21, 1893, Mr. Fenton was united in marriage to Miss Clara Neal of Langrange, Me., and this companionship extended over 50 years, his faithful wife now surviving him. Mr. Fenton served his country twice during the Civil war, enlisting first with the Second Maine infantry and later with the Second Maine cavalry. The was captured at the second battle of Bull Run and served as nurse in the Libby prison, where he was detained for a period of six months. He had been a resident of this city for 43 years.

After giving up his hardware business in 1893, he entered the purchasing agent's office at city hall as inspector, which position he had held for the past 20 years. Mr. Fenton was a member of Ladd and Whitney Post 182, G.A.M.

In his home life Mr. Fenton was quiet and affectionate, and leaves to mourn his loss, besides his wife, a daughter, well known in musical circles, Miss Clara H. Fenton.

## WHIRLWIND FINISH FOR N.E. LOAN CAMPAIGN

BOSTON, April 29.—With 72 per cent of the quota already in hand, Liberty Loan committees in the first Federal Reserve district went to work today to obtain more than the minimum allotment of \$250,000,000 before the close of the campaign Saturday. Reports from district chairmen indicated that the people were thoroughly aroused to the importance of making patriotic response to the government's call. While the general committee felt that the New England total would be over the mark, word went forth that continued effort and hard work would be required in every town and city.

The cheering news that Vermont had over-subscribed its allotment had a stimulating effect in other states and the rivalry for first honors was expected to develop largely increased over night returns within the next few days. The Vermont total when included, probably today, in the official figures tabulated by the Federal Reserve bank here, was expected to make Saturday's subscriptions the largest one day showing since the drive began.

Massachusetts must subscribe at the rate of \$6,500,000 a day from now until Saturday to reach its quota. Inasmuch as Boston is required to obtain the bulk of the state total, orders were issued today by the total committee for a whirlwind finish.

## UNDER ESPIONAGE LAW

### Endenborn, "Father of Wire Industry in U. S.," Arrested

NEW ORLEANS, La., April 29.—William Endenborn, president of the Louisiana Railway & Navigation Co., and a naturalized citizen of German birth, was arrested by department of justice agents last night at Shreveport, La., on an affidavit charging violation of the espionage act.

The arrest followed a meeting here of the executive committee of the National Security league, Louisiana section, at which resolutions were adopted characterizing alleged utterances by Endenborn at an Americanization meeting of citizens of German descent, last Friday night, as "sedition, treason against the United States and its allies."

The resolution adopted by the security league committee quoted Endenborn as having said at the Americanization meeting:

"There has been much talk of Germany coming over here and attacking the United States. We may have no fear that Germany will ever attack the United States. It would take a maritime nation to do that because America is surrounded by water. America can look to other countries for any possible attacks in the future. Recently a certain prime minister stated 'our nation is mistress of the sea, has been mistress of the sea and always will be mistress of the sea.'"

The speech is declared in the resolution "to breathe the arrogant spirit of Prussianism in its most hateful form and amounts to a seditious incitement to effect pro-German propaganda of the most cunning, insidious and demoralizing sort."

Endenborn, founder of the American Steel & Wire Co., now a part of the United States Steel corporation, has been referred to as "father of the wire industry in America," having erected mills and produced wire in 1870, three years after he arrived in the United States from Westphalia, Prussia.

## Mothers! Don't Give Children Nauseous Medicine for Colds

Local Druggists Are Offering an "Outside" Treatment on 30 Days' Trial

Children's Stomachs Are Delicate—Easily Upset by Constant Internal Dosing. The Best Way To Prevent Colds Is To Allow the Children Regular Out-Door Exercise—Keep Plenty of Fresh Air in the Bedroom at Night, and, at the First Sign of Trouble, Apply the South-Corn External Vapor Treatment

Fifteen years ago a North Carolina druggist discovered a process of combining the old-fashioned remedies, Camphor, Turpentine and Menthol, with certain volatile oils, in salve form, so that when applied over the throat and chest the body heat would release these ingredients in the form of vapors. These vapors, breathed in all night long, carry the medication, with each breath, to the air passages and lungs. In addition, the preparation is absorbed through and stimulates the skin, taking out that tightness and soreness in the chest.

Today this treatment, known as Vick's VapoRub, is universally used throughout the south in preference to internal dosing. By arrangement with the manufacturers the local druggists are offering 25c jars on 30 days' trial, the purchase price to be refunded if you are not delighted with the results.

You have to try VapoRub to realize its remarkable effect, not only for deep chest colds, sore throat, bronchitis or incipient pneumonia, but for head colds, asthmatic or catarrhal troubles. Croup is usually relieved within fifteen minutes and an application at bedtime prevents a night attack.

VapoRub is particularly recommended to mothers with small children as it is externally applied and can therefore be used freely and often with perfect safety on the smallest member of the family. No advance in price, 25c, 50c, \$1.00.

## 664,104 GERMANS MISSING MARCH 31

AMSTERDAM, April 29.—Speaking before the main committee of the German reichstag Friday, according to Vorwaerts, Gen. von Risberg stated that on March 31 last the number of German missing had reached a total of 664,104.

Of this number, he said, 236,676 were prisoners in France, 119,000 in England, 157,000 in Russia and Rumania and the remainder, 151,248, could be regarded as dead.

## ORDERED TO LEAVE

Mother of Empress Zita Sent Out of Austria

PARIS, April 29.—The Princess Marie Anoinette, mother of Empress Zita, has been ordered to leave Austria within 24 hours and not re-enter that country until the termination of the war, according to a despatch from Geneva.

Empress Zita has been blamed by the neo-German party in her husband's empire as being responsible for Emperor Charles' now famous letter to Prince Sixtus of Bourbon, his brother-in-law, in which he made overtures for peace to France, and said France's claim to Alsace-Lorraine was just one. Anti-Teutonic tendencies have been attributed to the empress because of her Bourbon descent.

# LOWELL SENDS MORE MEN

the "Middlesex street station without blare of trumpet or any semblance of impressive formality.

A total of 157 Lowell men went away this morning and with them were half a dozen or so draftees who had been transferred from other places to depart for national service with the Lowellians. Division 19 of Tewksbury also sent its quota to Devens in the company of the Lowell men, so the Middlesex street station seemed a sort of clearing house for the embryo soldiers.

At the Station

Shortly after 9:30 the future soldiers began to put in an appearance at the station. Most of them walked from their exemption board headquarters to the scene of departure along the sidewalk, so that there was very little doing in the line of "parade features." Owing to the large number of men who went away today, there was a greater crowd than usual gathered at the station. Every nook and cranny seemed filled and the usual parting scenes of "Where's Johnny?" or "Bye, Bill," together with not a few moist eyes and sad faces were once more enacted. There was no music

and no speculating, but there was a world of impressiveness.

**Train on Time**

Contrary to traditional custom, the train drew in almost exactly on the scheduled minute, 9:50. It was a long one with quotas from Haverhill and Lawrence taking up the first five cars. The final four were allotted to the Lowell and Tewksbury men. Each city was cheered in turn by the others and for 15 minutes there was a lot of excitement, shared about equally by the men who were leaving and those who were being left behind. At 10:04 a warning bell was sounded and in a few seconds the embryo soldiers were off for duty.

## Red Cross Outfits

Most of the Lowell men who went away today were supplied outfits by the local chapter of the Red Cross. And then there was the usual profusion of cigars, cigarettes, etc. It was as happy a send-off as send-offs can be.

## From Division 19

Division 19 exemption board with headquarters at Tewksbury sent away 43 men. They left Tewksbury about 9 o'clock and came directly to the Middlesex street station in autos and whatever other conveyances were handy. Before leaving the town hall in Tewksbury the men were addressed by Mayor Rushton of Methuen and officials of the board.

## Personnel of the Quota

The men who went away today, arranged in order of divisions, were the following:

## M. T. I. CONCERT PACKS THE OPERA HOUSE

The grand patriotic concert under the auspices of the Mathew Temperance Institute for the Knights of Columbus war work fund, attracted a large number of people to the Lowell Opera house last night, the playhouse being taxed to its capacity. The fact that the affair was being held by the Mathews was enough to insure its success and that together with the fact that the proceeds were for a worthy cause was another incentive for people being present.

The money made at this performance will provide many a soldier in France with comforts while the sol-

diers in the cantonments will also be benefited. In keeping with the good work Mr. Emerson of the Emerson players gave the use of the theatre tree and the Opera House orchestra furnished the music. The ushers also gave their services free.

The program was in two parts, the first part including several novel vaudeville features, while the second part was a minstrel show by the Mathew Glee club. Taken individually and collectively the entertainment was without doubt one of the best ever given in this city. The first number was a musical playlet depicting a scene in Ireland and was composed by John J. Townsend. The cast of characters included Mrs. Mary Mooney, Miss Nancy Swift, James O'Garra, John Devlin, James Daley and James Callahan.

Following this was a dramatic playlet, Richard Harding Davis' "The Little Girl," Thomas Beane, Michael J. Mahoney, Patrick Kane and Mary Slungro were the principals. The sketch was given excellently.

Andrew A. McCarthy made an excellent impression in "Keep the Home Fires Burning." For an encore he sang "The Long, Long Trail." Both numbers were given in a highly artistic manner. The Harmony quartet, Messrs. Martin H. McGuire, Edward McNulty, George Burroughs and John Doyle, gave several very pleasing selections, while Messrs. Maguire and Doyle rendered splendid solo numbers. Walter Davis, "Lowell's Own" comedian gave a very enjoyable specialty.

The minstrel performance by the Glee club followed. After a pleasing overture by a chorus of 80 voices solo numbers were given by the following: Edward Donahue, Miss May Bradley, Mrs. Mary Mooney, John Stapleton, J. Warren Kane, Miss Nancy Swift, Miss Bertha Dion, Walter

Davis, John E. Roane, Jr., Mrs. May (Dillon) Doherty, Miss Theresa McCarron, George Sullivan, William C. McNamara, Jr., Miss Alice Dion, Miss Florence Hague, Edward T. Handley and Arthur J. Deane. The finale was a patriotic feature, a Liberty Bond version of "Over There."

The chorus was under the direction of the president, John J. Townsend, while John W. Sharkey was interlocutor. The accompanist of the evening was William P. McCarthy.

Among the audience was His Honor

Barrette, O.M.I., said mass and Rev. Joseph Denis, O.M.I., the scoutmaster, preached the sermon. There was special music by the boys, and after the mass a drill was held at Washington park.

The women of St. Anne's sodality of St. Marie's church received communion in a body at the 7:30 o'clock mass yesterday morning. The high mass was at 9:30 o'clock, and at both these, Rev. Julien Racette, O.M.I., officiated and also preached a strong sermon on the second commandment. A special collection was also taken.

HOULTON, Me., April 23.—A disagreement was formally reported late Saturday night by the jury in the trial of Alexander Bordeleau of Lowell, Mass., charged with the murder of Moses Tozier of Sherman. The jurors deliberated eight hours and were dismissed at 11:30 upon reporting their inability to reach a verdict.

FREDERICK J. McSorley was arraigned before Judge Boright in police court this morning on a charge of manslaughter in causing the death of Juliette M. Brown in East Merrimack street Saturday. A plea of not guilty was entered and the hearing was continued until May 13.

The crack shooters were up to their old tricks yesterday and a half-dozen on participants in the game were arrested and charged with being present at a game on the Lord's day. Pleas of not guilty were entered and each was ordered to pay a fine of \$3.

Other Offenders  
Robert C. Richardson and James McTiernan, were charged with larceny, but inasmuch as they had made restitution they were given suspended sentences to the Massachusetts reformatory.

Ernest Sullivan was found guilty of drunkenness and to pay a fine of \$5. Nineteen first offenders were released by the probation officer.

THREE INQUESTS HELD  
Three inquests were held before Judge John J. Pickman in the court of second sessions in the Market street building this morning. One was into the death of Andrew Parke, the little girl who was struck and killed by an automobile driven by Francis M. Jones of Peabody in Chelmsford street the week before last. The second was that of Henry Kelley, of Lakeview ave., who was fatally injured in a collision between a motorcycle and automobile at the junction of Nesmith and Andover streets on Patriots day while the third was an inquest into the death of Andrew Dziedulonis, who was instantly killed in an automobile accident in the Princeton boulevard last week.

BOUGHT WITH KNIVES  
John Jacobs and Charles Zernissey got into an argument in Calinan's court, off Lakeview avenue, yesterday morning and during the mixup knives were used with the result that the former had several gashes across the bridge of his nose extending to both cheeks while the latter was cut about the forehead. Both were removed to St. John's hospital, but later Zernissey was released.

WOMAN AND TWO MEN TURNED OVER TO THE FEDERAL AUTHORITIES  
Patrolmen John Mahan and M. J. McCarthy arrested John Doyle of Hudson street, Saturday night, and sent her to the police station where she was charged with aiding and abetting a soldier to procure liquor. This is the first woman who has been arrested in this city for the alleged procuring of liquor for soldiers. Two others, both men, were arrested for a similar offense. One was Albert Richards of North Chelmsford who was sent in by members of the military police and John Donohoe of Church street this city who was arrested by Patrolmen J. H. Clark and Considine. The three were turned over to the federal authorities today.

WITH THE FIREMEN  
An alarm from box 823 at 4:53 o'clock yesterday afternoon summoned a portion of the fire department to a grass fire in Lawrence street, Wiggsville. No damage.

At 5:56 yesterday afternoon an alarm was sounded from box 15 for a partition fire in a house at 171-173 Fletcher street. The blaze was extinguished before any serious damage was done.

mass was celebrated by Fr. Gauthier and the sermon on holy orders was preached by Rev. Eugene Vincent.

Troop 26, Boy Scouts, and the Zouaves of Notre Dame de Lourdes, in full uniform, received communion in a body at the 7:30 o'clock mass yesterday morning. Rev. J. B. A. Barrette, O.M.I., said mass and Rev. Joseph Denis, O.M.I., the scoutmaster, preached the sermon. There was special music by the boys, and after the mass a drill was held at Washington park.

The women of St. Anne's sodality of St. Marie's church received communion in a body at the 7:30 o'clock mass yesterday morning. The high mass was at 9:30 o'clock, and at both these, Rev. Julien Racette, O.M.I., officiated and also preached a strong sermon on the second commandment. A special collection was also taken.

HOULTON, Me., April 23.—A disagreement was formally reported late Saturday night by the jury in the trial of Alexander Bordeleau of Lowell, Mass., charged with the murder of Moses Tozier of Sherman. The jurors deliberated eight hours and were dismissed at 11:30 upon reporting their inability to reach a verdict.

FREDERICK J. McSorley was arraigned before Judge Boright in police court this morning on a charge of manslaughter in causing the death of Juliette M. Brown in East Merrimack street Saturday. A plea of not guilty was entered and the hearing was continued until May 13.

The crack shooters were up to their old tricks yesterday and a half-dozen on participants in the game were arrested and charged with being present at a game on the Lord's day. Pleas of not guilty were entered and each was ordered to pay a fine of \$3.

Other Offenders  
Robert C. Richardson and James McTiernan, were charged with larceny, but inasmuch as they had made restitution they were given suspended sentences to the Massachusetts reformatory.

Ernest Sullivan was found guilty of drunkenness and to pay a fine of \$5. Nineteen first offenders were released by the probation officer.

THREE INQUESTS HELD  
Three inquests were held before Judge John J. Pickman in the court of second sessions in the Market street building this morning. One was into the death of Andrew Parke, the little girl who was struck and killed by an automobile driven by Francis M. Jones of Peabody in Chelmsford street the week before last. The second was that of Henry Kelley, of Lakeview ave., who was fatally injured in a collision between a motorcycle and automobile at the junction of Nesmith and Andover streets on Patriots day while the third was an inquest into the death of Andrew Dziedulonis, who was instantly killed in an automobile accident in the Princeton boulevard last week.

BOUGHT WITH KNIVES  
John Jacobs and Charles Zernissey got into an argument in Calinan's court, off Lakeview avenue, yesterday morning and during the mixup knives were used with the result that the former had several gashes across the bridge of his nose extending to both cheeks while the latter was cut about the forehead. Both were removed to St. John's hospital, but later Zernissey was released.

SUPERIOR COURT  
The cases of Frederick C. and Louise M. Flint of North Reading, against James H. Hustis, temporary receiver of the Boston & Maine railroad, actions of tort in which the total damages of \$25,000 were claimed by Judge Burke and jury at the opening of the civil session of the superior court in this city this morning.

## MRS. DE WEESE COULD NOT STAND

Because of Functional Disorder—Cured by Lydia E. Pinkham's Vegetable Compound.

Oakland, Cal.—"I suffered from irregularities and congestion, so I could not stand on my feet for any long period of time and did not sleep well. The physician who treated me did not seem to help me and a friend advised Lydia E. Pinkham's Vegetable Compound. I took it and before I realized it I was well. I shall recommend your valuable remedy to my friends."—Mrs. L. H. DE WEESE, 605 Alcatraz Ave., Oakland, Cal.

Every woman at some period or other in her life suffers from just such disturbances as did Mrs. DeWeese, and if there is no interested friend to advise, let this be a reminder that this famous root and herb remedy has been overcoming these ailments of women for more than 40 years.

The letters constantly being published from women in every section of this country prove beyond question the merit of Lydia E. Pinkham's Vegetable Compound.

COTTON MILLS GRANT WAGE INCREASE

NEW BEDFORD, April 23.—The Cotton Manufacturers' association today posted notices in the mills advancing wages 12 1/2 per cent, the increase to become effective June 3 and continue for six months. The operatives had asked for a 25 per cent advance. A meeting of the textile council will be held tonight to consider the increase offered by the millmen.

HONOR FLAG RAISED BY LOWELL LODGE, LOYAL ORDER OF MOOSE

The regular meeting of Lowell lodge, Loyal Order of Moose, was held yesterday afternoon in Odd Fellows building. There was a very large attendance owing to the holding of a big class initiation and the raising of a service flag in honor of the members of the lodge who are now in the service.

Forty-seven new members were admitted into the lodge, the initiation exercises being conducted by the degree team under the direction of Capt. John B. Curtin. Richard E. Flynn was awarded the first prize, a Moose charm, for bringing in the largest number of new members during the month of March. P. R. Monahan won second prize, three months' dues.

Brother Edward Goodson presented the lodge a beautiful service flag in recognition of the members who are in the colors. The following are those who have answered the call up to date: Sergeants Leo F. Fox, Walter T. Powers, E. R. Hart, Corporals John J. Donovan, William H. Leoney, George W. Brick, Privates John J. Kearns, Felix Ducharme, Edward J. Horgan, Frank Mason, Fred Butler, James P. Higgins, Frank J. Delahanty, Charles McLaughlin, Albert Turcotte, Alfred Boy, Luke Garrity, Frank Brooks, Frank C. Surran, William H. Berry, Joseph Lacie, Edward Heffernan, Joseph A. L'Heureux, Daniel J. McGeever, Ray A. Willett and Isaac Suprenant.

Following the presentation of the flag, Brother James E. Miskella spoke on "Patriotism." Referring to the present struggle he dwelt on the rapid progress made by the country during the year and stated that the oncoming of the United States into the conflict assured a successful ending of the war. In conclusion, he made a strong appeal for the purchase of Liberty bonds of the present issue, urging the lodge and the individual members to invest every available dollar.

His remarks were received with enthusiasm by those present, and a rising vote of thanks was accorded him by the lodge. The board of trustees reported the purchase of \$200 worth of Liberty bonds by vote of the lodge. A literary program was provided for the occasion and added much to the enjoyment of the afternoon. A buffet luncheon was also enjoyed.

FREE "MOVIES" FOR BOYS AT THE MERRIMACK SQUARE THEATRE

Tickets have been given to boys over 10 years to attend the Merrimack Square theatre Tuesday morning at 10 o'clock to see the great vocal film, "Thomas Jefferson Morgan, U.S.G."

This film is a picture-story of a boy who was a nuisance to his parents and who, eventually, won out by applying his surplus energy into business directions. It is put on by the courtesy of Mr. Nelson of the Merrimack Square theatre at the request of Mr. Williams of the Y.M.C.A. boys' department.

Parents are urged to attend with their boys.

THE STRAND  
Ever hear of the "Famorette" gown? Do you know what Paris and New York are suggesting for the coming seasons? Have you the slightest idea what the color combinations are going to be? Have you seen the latest bathing girl? If you wish to learn all these things and considerable more in the way of the season's very latest styles and fashions, don't miss the latest Paris and New York creations will be shown, but also some of her own exclusive series. Don't miss it. An entirely different set of gowns will be shown daily.

Despite this big feature, the management assures all patrons that the regular bill will also be carried out. Carole Blackwell and Evelyn Greaves will appear in their latest picturization, "Leap to Fame," and handsome Mary Allison will be seen in "Social Pictures," the latest Metro release. There will also be a Vitaphone comedy and the usual interesting Pathe Weekly. Miss Annette Luwick will be

the soloist and the other musical numbers will be furnished by the Strand Symphony players and Conductor Marcel. 1000 seats at 10 cents.

OPERA HOUSE  
"Intolerance," the D. W. Griffith spectacle which will be shown all this week at the Opera house, beginning with matinee today, is said to be the most magnificent production of all times. In its visual presentation is given of four different decades, namely Babylon in the days of Belshazzar, Judea at the time of the Nazarene, medieval France when Catherine de Medici dictated to her son Charles IX, and the present day, and through it all is sustained most interestingly the motive of the play, "Love's Struggle Throughout the Ages."

Possibly the most stupendously magnificent scenes are those which represent Belshazzar's famous feast, disclosing a panoramic view of over a mile of ancient world splendors and architectural wonders against which diaphanously attired women and picturesquely clad men stand out in stereoscopic relief.

Among the film favorites having the principal roles are Mae Marsh, Miriam Cooper, Constance Talmadge, Seena Owen, Lillian Gish, Robert Barron, Leavitt, Grace Moore, Kathryn Leavitt and Julie Ballou. Among the numbers which will be given during the week are: Opening melody for the "One Day in June," Miss Bailey's "Au Revoir," "The Day of the Dragon," "The Irish and Yiddish," Miss K. Leavitt, and "When I Dream of Old Erin," Miss J. Leavitt.

Walter De Leon and Mary Davies offer their newest novelty skit, "Behind the Front," the theme of which concerns the popular custom of wearing a front. The play is a comedy of some unknown soldier in the trenches in order to furnish him with the little luxuries he might not otherwise get. The man is all fun and a yapper. It is called "Over There" and the fun is fired out at an amazing rate of speed. These two men have been considered two of the funniest black comedians in the business. Talbot Kenney and Marie Walsh in "Fameless Patter," present a mixture of a lot of funny things. They are sure to be liked, and MacRae and Clegg are performers on the bicycle. Miss Clegg will make an instantaneously hit.

Julius Ellinger, positively the greatest impersonator of women before the public, will be shown in "The Widow's Mine," a motion picture which is said to be filled with good scenes. It is Ellinger's first essay before the camera and it has been remarkably successful. The Hearst-Father News pictures will be shown at each performance.

## THE WAR SITUATION

The war situation for the Allies is rather critical. The loss of Mt. Kemmel has jeopardized the whole Ypres salient and unless the peak is retaken and the enemy driven back the channel ports may eventually fall into the hands of the Germans.

The drive now is to reach Dunkirk on the coast which would force the evacuation by the Allies of the triangular area included within the lines drawn from Mt. Kemmel to Nieport and Dunkirk. The distance between the two latter ports is about twenty miles, but within the area mentioned are many towns and villages. This would be a great sweep of territory to be acquired through forced evacuation.

If the Allies find that there is danger of the Germans breaking through towards Dunkirk, they will have to draw their line south from its present location touching the coast slightly above Nieport. Otherwise the forces north of Dunkirk would be captured.

What Germany would do if she had possession of these channel ports can better be imagined than described. She could sweep the channel with her guns and even shell the coast of England. The prospect is one that must call for the most desperate resistance by the Allies and the most active co-operation by the United States.

## NEW FORMS OF ENERGY

With a new form of energy Herbert Spencer said he could revolutionize the world. Archimedes said he could lift the earth on a lever, if he had a proper fulcrum outside the earth. That little "if" in either case made the realization conditional upon what so far as can be determined is a clear impossibility.

Manual labor was the first form of energy utilized by man, although many others existed if he only knew how to find them. The name of the inventor of round wheels has long since been lost in the beginnings of history, but he gave the world a new form of energy which enabled men to travel and to move heavy material.

The varied application of the lever and the pulley added much to the scope of man's mechanical power. Much later came steam, and with it a new world. Then electricity and petroleum, with the world again made over as we know it.

Today, scientific thought is focused on "garabed," the greatest fate or the greatest discovery of form of energy since Adam first put his hand to tools of labor. The claim for "garabed" is that it is energy without use of fuel or labor—perpetual motion, plus limitless power. There is probably a scrap heap mountain high of perpetual motion machines but Garabed Giragosian, who would now make us a new world, has convinced some of the brainiest people in the country of the superlative merit of his discovery, and congress has seriously accepted his proposal to demonstrate that he has what he claims.

Unlimited energy, without use of fuel or labor, would surely make a new world, by being devoted to bealing the Hun, if in no other respect. And yet in the hands of the Hun it might be made the most potent weapon of destruction. England invented the fierce and fearless war tank but after the Germans captured a few of them they made tanks fully as powerful as the British and the spectacle was witnessed of the British being routed by their own invention.

What effect the discovery of a new form of energy would have upon the morale of the world, if it removed to any great extent the need of manual labor is problematical. If "garabed" should lead to the abolition of labor, the race would deteriorate from inactivity.

But should "garabed" be all that its discoverer claims for it, there will be an immediate attempt by diverse monopolists to capture it and deal it out in the manner best calculated to bring financial returns. The great mass of humanity can always rely that there will be some Rockefeller to pre-empt or control any such luxury and furnish it only as the people can afford to pay for it at such rates as he may be allowed to fix.

## CHURCHES AND BANKS

The churches and the banks of a city guide its moral and business life. Lowell is fortunate in the work being done by both. Some of the churches have out service flags with numbers running into the hundreds, while they are ever ready to aid every movement for the moral or spiritual uplift of the community.

The banks are institutions through which the financial business of a city is transacted. Without them business would languish. They furnish the money for great enterprises and extend credit which is an essential factor in business. In every city a very great proportion of the business is done on credit obtained through the banks.

The banks also offer a safe place of deposit for money and they pay a fair rate of interest on deposits, compounding semi-annually. In spite of this there is reason to believe that many men who have money carry it around with them, being afraid that the government might seize it if placed in a bank. Nothing could be more absurd than to suppose that the government would confiscate bank deposits in this way. The Bolsheviks of Russia looted the banks, but the United States government would not do such a thing even if it were face to face with the worst form of disaster. The local savings banks are thoroughly reliable institutions. The laws of Massachusetts throw the utmost safeguards around all such banks. There is another consideration that should not be forgotten. It is that the person who hoards money instead

needed for the successful prosecution of the war.

## THE BAN IS OFF

The people of Lowell hear that the Camp Devens ban is off, but they know not why, just as they knew not why it was put on in the first place. We are told conditions are improved, although the police are not more active now than then. The ban has seriously injured the reputation of Lowell. The sale of liquor to soldiers was probably the chief cause which induced the authorities to stop men coming here. Any man who in future is caught selling to soldiers should be railroaded to jail just as quickly as the machinery of the law will permit. If the bootleggers have been driven out, the police should now see that they do not return.

## PUNISHING GERMAN SPIES

The people of this nation do not care much by what method the German spy system shall be put down, provided it be stamped out. There may be certain cases which would be more properly referred to a court martial than to a criminal court. It would be well to provide for summary methods in extreme cases. The machinery of the courts can be blocked and delayed by subsidiary motions and this may lead to delays that will result in the people taking the law into their own hands.

## SEEN AND HEARD

"Liberty is not the right of one, but of all."

It was Daniel Webster who said: "God grants liberty only to those who love it, and are always ready to guard and defend it."

WELL, WHY NOT BUY ONE OR TWO OR THREE? OR A WHOLE HALF DOZEN LIBERTY BONDS

## Receipt for Longevity

Take one quart of patriotism and two quarts of perseverance and stir into this one cup of Liberty loan extract. This is to make the substance rise. Heat thoroughly into this mixture of equal parts of harmony, guttural W. L. Brax's wheat flour (substituted) and Auntie Germania's proper gender. Season with extract of Pershing and serve with crushed autocracy sauce, containing plenty of Haig. Then set out to cool slightly, but don't allow it to become cold before serving, and don't use cannoli-plate plates which may have been infected with kultur. N. B.—The Liberty loan extract is essential. Refuse all substitutes.

## And Then He Bought

The young business man was accosted on the street. He flashed the only alibi the bond solicitor honors—on his lapel. "Then he explained, 'Down home yesterday,' he said, 'we were talking about the loan. I came my kid brother. 'Well, I've signed up for a bond,' he said. 'Guess I can earn enough after school working in gardens to pay for it.' 'Then in walked my kid sister. 'Well, I've signed up for another bond,' she said. She earns \$6 a week. 'And then my wife chimed in. 'I've already bought one! Spot cash.' 'I didn't know she had 50 cents, but she'd been saving on the house expenses. 'You can't bound me any more,' he concluded. 'I went right out and signed up for a Hun-kicker myself. There weren't any excuses left!'

## New Button on Old Coat

The reading of four hardy lads gives her little time to read the papers and less to attend meetings. "Daddy, what are the whistles and bells for?" she asked, looking up from her darning. "Oh, just a reminder that you're not

raising Bobby, George and the rest of 'em to be boches," he replied. "Liberty loan, little woman." The answer didn't satisfy. Details she must have. Then she was thoughtful. Not a word, you understand, about the carefully hoarded roll of dollar bills upstairs, nor a word about the way she'd been "looking around" and how difficult it was to choose between the blue and the tan—both being perfectly adorable spring coats, and within her reach. Some of her time the following afternoon was passed in the business district. Some merchant lost a sale, but he will not begrudge it, for in the lapel of the coat, when she returned, was a button. "So you prefer a bell with a crack in it and the old coat to a new one?" he asked. "Yes," serenely, "and I am not apologizing. This neighborhood is noisy as it is, but when I thought of getting it in German I rushed right down to do my share, even if the corn muffins did get burned."

## The Stubbish Pipe

Gets you for a couple of dozen times—After you've scraped the old pipe clean and wiggled a cleaner through the stem, and it drew as easy as a two-foot stack. Then filled it up with good war-tax tobacco, packed it in good and solid, and lit it. Then lit a match. To it, and—Dag it to blazes!! It don't draw! It's stuck tighter than a clam's scalp. You enjoy pipe smoking after you've tried this. The average kaiser does. We know, because we cuss just as much over our pipe as you do over your game Or golf.

## The Latest Dollar

Third or fourth, what's the diff? There's no "maybe," but, nor "if." For our Uncle Sammy needs it in his biz. So we're back of every gun And we're going to "stop that Hun!" If it takes the latest dollar that there is.

How'd you like to be the Russian Rayonayed by the Prussian? And despoiled of every kopeck, with four billions yet to pay? Dollars few or dollars many, Let's pledge them every penny Beating back the kulture kaiser and to help the U.S.A.

Ques to do it? Then it's done. Uncle Sammy needs the mon. Every time we loan a dollar, You can hear the kaiser holler.

## VINOL CREATES STRENGTH

### Positive—Convincing Proof

It is all very well to make claims, but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

Cod Liver and Beef Peptones, Iron and Manganese, Potassium, Sodium, Calcium, Magnesium, Citrate, Lime and Soda Glycophosphates, Casein.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question. That proves our fairness and your protection.

## MYSTERIOUS FIRE IN TUFTS DENTAL SCHOOL

BOSTON, April 29.—The police were investigating the origin of a fire which early yesterday destroyed the Tufts college dental school building in the Back Bay district. Several hundred students are taking a special course at the school to prepare them for dental work in the army and navy.

Firemen said that students who live nearby prevented the flames from reaching the adjoining building which houses the Tufts college medical school. Valuable scientific instruments and a quantity of platinum were recovered safely from the detail laboratories.

The college authorities said that the work of the dental school would continue in temporary quarters. The loss is estimated at \$50,000.

## PUBLIC RESERVE BUREAU WANTS MEN TO VOLUNTEER FOR FARM WORK

The U. S. Public Reserve Bureau wants 150 men to volunteer to work on farms during the whole of the coming summer or whatever part of it they may be able to. Mr. Otto Hooper, local enrollment agent with headquarters at 119 Merrimack street, has received the following letter from William A. Gaston, director for Massachusetts:

Shipping is the nation's greatest need in the present crisis and your work as enrolling agent for the U. S. Public Service Reserve has been a very valuable contribution in supplying that need.

As fast as ships are ready, however, we must have food and munitions to fill them. Ships without food to transport are of greater military value than food without ships for its transportation. A carload of Massachusetts grown food has nearly twice the value of a carload of food grown in the west, because of the great reduction in transportation, delay and expense.

But the Massachusetts farmer faces a shortage of labor which seriously handicaps him. The situation is rendered doubly serious by the intense competition of our many war industries which, in turn, are directly affected by the high cost of all foodstuffs.

And so we are asking you to take up the all important task of enrolling men for farm work in Massachusetts. No men are to be enrolled who are now engaged in farm work. This is an effort to add to the men now working on the farms a large number of men who can give from two to four weeks of their vacation to six months' continuous farm work during the present year.

Fixing wages or conditions of labor is not one of the functions of the Public Service Reserve. The county agricultural agents, whose offices distribute the labor thus obtained, inform us that the prevailing farm wage is \$2 to \$3 per day without board and \$30 to \$50 per month "found"—do-

## Says She Was As White As a Sheet

Dr. Williams' Pink Pills Brought Back the Color to Her Cheeks and Lips.

Rich red blood showing through translucent skin means not only beauty but health. When your color fades you will find that your heart palpitates on slight exertion and that your breath is short and you lack ambition. All these things are symptoms of an anemic condition, of thin blood.

Try building up the blood with Dr. Williams' Pink Pills. Eat nourishing food, exercise a little in the open air daily and watch the color return to cheeks and lips. If you are below your normal weight you should take on one or two pounds a week under this treatment.

"I was so pale that I was as white as a sheet," says Mrs. Belva L. Holland, of No. 24 Holmes avenue, Worcester, Mass. "I had become all run down, was subject to headaches and was irritable and nervous. I could not get a good night's sleep, was tired all the time and had but little ambition. Through the recommendation of my aunt who had used them with benefit I tried Dr. Williams' Pink Pills after other treatments had failed.

"While I was taking the second box I could notice a decided improvement. The headaches stopped and I could sleep better. The color came back to my cheeks and lips. Dr. Williams' Pink Pills are a fine tonic and I have no hesitation in recommending them."

The blood goes to practically every part of the body and if it is rich and red it carries health and strength to every organ. The digestion is toned up, the nerves are strengthened and aching muscles are made strong. Dr. Williams' Pink Pills are especially useful to run-down women who worry about their daily tasks and duties.

In spite of the increased cost of all drugs the price of Dr. Williams' Pink Pills has not been changed. Your own druggist can supply you or you can order direct from the Dr. Williams Medicine Co., Schenectady, N. Y., enclosing fifty cents for one box or \$2.50 for six boxes. Write today for a free copy of the booklet "Building up the Blood."

pending upon the experience and ability of the men.

As soon as the filled-in registration cards are received from you at this office, they will be redistributed to the different county agricultural agents, who will place registrants for this farm labor emergency in touch with the individual farmers who require farm help.

General publicity will be given to this farm help drive in the leading farm papers. The New England Homestead, for instance, carries a double spread next week. We will assist you in every way we can to give publicity to your enrollment work.

Boards of trade and manufacturers are being organized to co-operate with the colleges who have special faculty enrollment agents to enroll their students for farm work. High school boys and women are also being enrolled.

Enrollment cards are being sent to you under separate cover. Please make your returns daily to this office. The sooner these men are registered the quicker we can satisfy the farmer as to the acreage that he can plant and care for. Therefore, we ask you to start your work at once.

Your quota for Lowell will be 150. What we are trying to do is to save Massachusetts from a food famine next winter. Is there anything you can think of, except going to the front, that is of more value to the nation than this service of getting an adequate farm supply this year?

Yours very truly,  
U. S. PUBLIC SERVICE RESERVE,  
Director for Massachusetts,  
D. W. O'BRIEN,  
Organizing director for agricultural enrollment.

"The Proper Tonic When Coughs Are Chronic."

## FOLEY'S HONEY AND TAR COMPOUND

"HAWKING" and spitting, with or without hacking cough, not only disturbs and disgusts bystanders, but weakens and wears down the system of the sufferer so that the way is made easy for more serious sickness.

It isn't "smart" to neglect a cold. On the contrary, it is downright foolish. It may sound quite bold and strong to say, "I don't believe in medicine or doctors," or "I never bother with a cold," but just watch carefully the result of such practices. You hear the boasting and bragging man, "The cold went away," but you don't always hear the regret and sorrow when the cold stays and does its worst.

Let common sense, intelligence and experience be your guide. Act promptly to check any cold, no matter how slight. Stop any cough as soon as you can. "It's better to be safe than sorry." Is an old and true saying. Foley's Honey and Tar Compound loosens the phlegm and mucus, clears the passages, coats the inflamed and irritated membranes with a healing and soothing medicine, cures the hoarseness, stops tickling in the throat and enables you to rest, eat, and sleep. It contains no opiates and is pleasant to take. Good for children as well as "grown-ups." Has relieved thousands of cases of severe cold, croup and whooping cough. In 25c, 50c and \$1.00 sizes.

## CONFIRMATION CLASS AT ST. ANNE'S CHURCH

The rite of confirmation was administered to a class of 75 at St. Anne's church yesterday morning by Rt. Rev. Samuel G. Babcock, suffragan bishop of Massachusetts. The congregation taxed the capacity of the church and all listened attentively to the interesting and instructive sermon delivered by the officiating bishop.

To those who had been confirmed the bishop spoke in part as follows: "When you were baptized you were enlisted in the army of Christ. Now you are mustered in. If you want to know what one of the first thoughts to enter your minds should be, I will say it should be a thought of preparedness. At Camp Devens a few days ago I confirmed a number of soldiers who are going to the front. There is one characteristic of all the men who are at that camp: they are preparing for the struggle, which they believe will end in victory.

"And that is a parable in this. It is for you to struggle with evil. You are all banded together under the standard of Christ. If we would be fit for the struggle we must make daily preparation. It is not enough to go out into the world now and to forget what we have learned. No, we must not do that, but we must feel how we can best use the weapons against temptation which God has put in our hands; now we can do the most in the training camp of Jesus Christ.

"Every Christian should use the spiritual weapons placed at his disposal. Knowledge of the word of God is a wonderful thing. We all ought to read the Bible, especially the New Testament. I know of one who, if she did not read the Bible daily, would fall into utter despair. The word of God can help us to be good soldiers. We ought to cultivate that weapon we call prayer. Men talk of the power of physical might, but it is nothing compared with the communion with God. He comes into our lives through the medium of prayer.

"Don't forget the means of grace. Public worship in the church is most important. It is the corporate worship of the children of God. If you neglect this you cannot remain a good soldier. You must be regular in attendance at communion. You must do what you can to help those who need help. Those who are sick, distressed, who need sympathy and help of every kind—the Christian soldiers will give to them what they need.

"Be strong in the Lord. May God help you to be true. We thank God for this great confirmation class. Do not disappoint your fellow soldiers in the parish, but bring in the strength and power of the son of God."

Later, in his sermon, Bishop Babcock contrasted the works of Saints Paul and Peter, in their delineation of the resurrection. Paul was logical; Peter in his mind appealed on the basis of heart instinct. He speaks of hope, said the prisoner.

"What a great word 'hope' is," he said. "Young life is naturally hopeful. As we grow older, if we retain the spirit of youth, then we retain the spirit of hope. Hope always looks for the sunshine after the storm.

"One of the characteristics of the age in which we live is that it has been devoted to mental culture. Before the war it was said that mental culture was the hope of the world. But it all depends upon what kind of mental culture it is. If it does not impart hope in the student of it, to my mind, we should beware of it.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

Such culture was that of Paganism, it is that of modern Germany. It is bad mental culture. Whenever we leave the hopeful atmosphere of Christianity and go back to the faith of Paganism we are doing the world an injustice. We are harming ourselves and our friends. Our ideals become other than those of Jesus Christ.

"This nation is at war, and it is with perfectly wonderful spirit that we entered this war. This war, with all of its sacrifices and its agonies, will be a better thing for the race. We went into the war that humanity and liberty may be preserved. We have risked all that these may prevail. An army without hope of victory is a demoralized army. When men do their work without hope they do not do good work.

"In spiritual affairs we will have grander, nobler ideals of living than we have ever had before, if we have hope. All nature on such a day as this is full of the spirit of hope. The trees and flowers show they are hopeful, for the buds are coming out, the leaves are showing. But we are more than trees and flowers, and so should have a greater measure of hope.

"The highest and most important instinct is that of immortality. Every rational instinct tells us that the works of great men do not die, but leave a living force long after they have left us. On the first Easter day a living hope was born. It is a living hope founded on the living, glorified risen Christ. It is a living faith. We are pilgrims with a living hope."

## HUSBAND AND BRIDE OF 3 WEEKS FOUND DEAD

CAMBRIDGE, April 29.—Mystery surrounds the death by gas of James E. Simpson and his bride, whose bodies were found yesterday in a room of the apartment in which they started housekeeping last Monday. Simpson was 22 years of age and his wife 19. They had been married three weeks.

Gas was flowing from a stove and from jets in the chandelier in the room where the bodies were found. A pocket searchlight was in the young husband's hand.

In the pocket of his coat was a card from the draft board at Newton, notifying him that he had been placed in class 1-A of the draft. An identification card said that in case of his death his father, who is in Nicaragua, should be notified.

Simpson formerly lived at the Newton Y.M.C.A. He was graduated from the Cushing academy two years ago, and had been employed as a bookkeeper by a State street firm in Boston.

Mrs. Simpson was the daughter of John L. Owens of Dorchester, Mass. She had been studying at a school in the Back Bay section of that city. She formerly lived in Brockton and was graduated from the Brockton high school.

Last night the bodies were taken to a morgue, where they will remain until claimed.

## LIBERTY GARDEN BEING PUT IN SHAPE FOR SAGO-LOWELL EMPLOYEES

The 35-acre Liberty garden in Clark road and Andover street, which will be conducted by the employees of the Sago-Lowell shops in the course of the summer, is being put in shape and Saturday a big tractor plow started turning the ground over. As soon as the plowing is finished the land will be divided into lots, 50 by 100 feet, and sheds and tool houses will be built for the accommodation of the amateur farmers. It is expected that a great crop of vegetables will be raised on this farm.

## HONOR BAY STATE MEN

April 12, received medals, as did five men of another regiment who had participated in earlier fighting around Soissons. Here and there in the line of heroes were spaces representing Americans who were killed or wounded seriously.

104th Decorated as Unit  
It had been raining in the forenoon, but the sun broke through the grayish clouds when the 104th regiment, which also was decorated as a unit, passed in review before American and French generals. Bands played "The Star Spangled Banner" and "The Marseillaise" while the American and French flags waved proudly and defiantly within sound of the roar of German guns. The French general in conferring the decorations said of the regiment:

"It showed the greatest audacity and a fine spirit of sacrifice. Subjected to very violent bombardments and attacked by large German forces, it succeeded in checking the dangerous advance and took at the point of the

bayonet in a most vigorous way, prisoners and some demolished trenches from which it had fallen back at the first assault."

Cheers for Yankee Heroes  
The few civilian spectators who witnessed the ceremony included several French women, residents of villages near the front. They cheered as the young Americans, wearing full equipment and helmets, marched by. Some Americans attached to other units were greatly moved when the band played the national anthem. They saw the bright new flag and realized what their comrades had been through to merit the honors. The general commanding the American forces shook hands with and spoke words of encouragement to each of the men decorated, saying it was the proudest moment of his life to be the commander of men who had done such great honor to the country.

List of Recipients of War Cross  
The following members of the 104th regiment received the War Cross:

The Rev. John Des Valles, Captain George A. Roberts, Edward J. Connelley, Walton S. Danker, Oscar A. Dudley.  
First Lieutenants James G. Rivers, Edward H. Phillips, Harold T. Lowe, Henry R. Knight, Roswell King; Second Lieutenants William E. Barnett, Crawford J. Ferguson, W. C. Day, Alton K. Dexter, Borton Edmunds, William H. Murphy.

Nelson, Ralph Dawes, William Houston, Robert R. Twiss, William F. Wruck.

The other men decorated were Maj. Harold W. Batey (Ester?), 101st regiment; First Lieut. Edwin D. Hopkins, Sergt. Dodge and Privates Jos. W. Johnson and Ernest W. Tobsberg.

On April 10, 11, 12 and 13, the Germans attempted to break through the American position near Apremont forest. In the four days' fighting the enemy lost between 300 and 400 of his especially trained shock battalion of 800 men. Of this number 400 were killed. The Americans took 36 prisoners.

YANKEES IN BATTLE  
Continued  
A fire which in some cases was rather heavy, the American gunners took up the positions of the French batteries and completed the work of digging in. When the infantry moved in, the firing was just as intense. In some places, our troops, after passing through villages, were raked now and then with shrapnel. In several instances they found the trenches shallow, while in other cases there were no trenches at all. By this time the

positions have been improved greatly and the shell holes connected.

Americans Confident  
The American lines generally are about 200 to 400 yards apart and the high ground is about evenly divided.

The American forces are confident that under the efficient direction of the French, although the tasks ahead may be difficult, they will give a good account of themselves and strike the Boche a blow if opportunity offers. It should be understood that this sector is not especially active in comparison with others to the north, although it is more active than those the Americans have previously faced. The artillery firing is heavy and intermittent, the German shells whizzing over the lines into towns in certain rear areas.

Americans Close to Enemy Lines  
There has not been a raid on either side of the line for several days but at night the patrols are active, Americans approaching close to the enemy's lines. All during the nights rapid machine gun and rifle fire indicate where the American bullets are keeping out enemy patrolling parties.

The march from the billet bases to the line was very impressive. Many units started off with the strains of The Star Spangled Banner, played by regimental bands, in their cars.

At one place the line must have reached the German lines, so close was the band, the gun flashes being reflected on the instruments. The constant roar of artillery was deafening as the Americans, marching as if on parade, disappeared down the roads past the American batteries, which were sending many shells into the enemy lines.

# LOWELL HIGH DEFEATS MATTY DECLINES OFFER DORCHESTER HIGH TO GO TO FRANCE

In a contest that had all the aspects of a 50-50 affair with the happy exception that Lowell won, 5 to 3, Dorchester high was humbled by the Kirk street men at Spaulding park Saturday afternoon in the first home game of the season.

In the matter of hits, errors and general playing ability, both squads were pretty evenly matched. Were it not for a ground scratching catch by Captain Mansur in the second stanza, which blasted the hopes of two visiting pitchers, the game might have gone into extra innings with the final figures showing no superiority for either nine. However, Mansur was evidently in a hurry to get home, for when Gormley hit Texas Leaning to right in the second, with two men on the sacks, the speedy captain tore in, stuck out his glove and provided a safe resting place for the sphere. Never after did the visitors break through the Lowell salient.

Orday was in the box for Lowell and showed material evidence of the good things which had been said about him in the few innings he pitched last Wednesday against Mitchell Boys' school. He had steam, variety and stamina. One noticeable defect which will wear off in the refining process of experience was his persistence in lunging in an elaborate windup, which was a liability to the pitcher. He was open to its opportunities than Dorchester would have chalked up a record number of stolen bases as a result of the Lowell twister's preparations, but the visitors were unwilling to indulge in the game.

Warren was in the points for Dorchester and was touched up for eight hits in his sustaining work. Augustus succeeded him and held Lowell hitless for the remainder of the game.

Dorchester looked "big" in the first inning when three runs came over the platter. After Lederman had struck out, Walkins singled to right and then stole second. Walsh fled to Cahill and then forced in three runs. In succession, this forcing in Walkins, Saunders and Gormley to left with two more tallies counting. This ended the damage.

The visitors got "nasty" again in the second, with Lederman and Walkins singling. Walsh grounded to Orday and then Gormley gave Mansur a chance to do his circus stunts and prevent further trespassing.

Lowell got two in the fourth on singles by Lawler, and Cahill followed by a three-bagger to left from Sturtevant's baton. In the sixth the Lowell men sewed up the game when Lawler walked, took second on a passed ball and came home on singles by Cahill and Sturtevant. Bismeyer walked and two more runs came in when Brown singled. This ended the tallying.

Lowell High defeated Dorchester High, 5 to 3, in the first home game of the season. The game was played at Spaulding park. The Lowell team was managed by Captain Mansur. The Dorchester team was managed by Captain Warren. The game was a close contest, with both teams showing good playing ability. The Lowell team was victorious in the end.

The Kimballs defeated the recently reorganized C.M.A.C. team on the North Common Street after afternoon. The score of 14 to 4. The contest was a one-sided affair, the winning aggregation banging the ball out at will. Atino for the Kimballs and Scott for the C.M.A.C. did good box work, each striking out seven men. The C.M.A.C. was very weak in fielding.

# CAMP NEWS

## PERMANENT HEADQUARTERS ORGANIZATION TO BE QUARTERED AT CAMP DEVENS

CAMP DEVENS, April 29.—First definite news that a permanent headquarters organization is to be quartered at Camp Devens when the 76th Division leaves—whenever that may be—came in an order yesterday from Washington assigning Maj. Rupert A. Dunford as permanent adjutant at this cantonment.

Maj. Dunford is a regular army officer of 13 years' service, coming from Utah. Before going to West Point he served in the Utah Cavalry and was a private in the Spanish-American war. He is a graduate of the army signal school and has seen service in the canal zone. He will probably have a fairly large staff in the administrative work in a camp which more than likely will be a recruit depot.

The biggest visiting crowd in months was in the sightseeing fettle yesterday. Early arrivals saw an inspection of the 301st Engineers and all the other engineering outfits in camp by Col. Lytle Brown, U.S.R., from Washington. Maj. J. Edward Cassidy, marched his Rhode Island unit to Cavalry Plots, opposite the main entrance, with his tool wagons, trucks, touring cars and the heavily laden pack animals performing for the inspector and the Sunday visitors for two hours.

Another unexpected Sunday attraction was the arrival of draftees from Division 13, Boston, two days late, 45 whites and 10 colored recruits, leaving 2300 more Massachusetts draftees to come in to complete this draft of 5810. One Providence draftee, Vincent Roderick, brought in as an alleged draft evader, had three broken ribs; 10 minor injuries received in an auto accident just before reaching camp. With him were Samuel Brown

of the Rhode Island state police and a friend, both slightly cut when the machine ran into another car. They were treated at the infirmary, given \$50 for bringing Roderick, and the latter was sent to the base hospital.

The first big Sunday ball game in camp between the Rhode Island and Devens wasn't nearly so exciting as a game between white and colored soldiers. The Florida draftees are livelier on the diamond than any other men in camp and their vocal playing is worth coming far to hear.

A colored draftee from Springfield Saturday put down his occupation "prize fighter." He is Robert ("Bob") Lee.

There were band concerts galore for the visiting throng. The Depot Brigade band played its new march "By Band Leader Shaefer, which will be played again at the concert in Revere, May 3. Capt. Kusche and the band hope to raise enough money to outfit themselves with instruments.

One warmly welcomed visitor was Maj. C. P. George, adjutant of the 51st Artillery Brigade, in which the 101st, 102d and 103d Artillery Regiments from New England are a part. Maj. George is home on sick leave and has high praise for the New England artillerymen in France. For publication he would say only that our men are "giving a good account of themselves."

Maj. Cecil Stewart was given an honorary discharge yesterday from Washington. Maj. Stewart was a retired regular army officer called back to service at the outbreak of the war and did much of the organizing here.

Pneumonia caused the death of another colored draftee yesterday. Private Junius Aytes of Deland, Fla.

## THESE ARE UNCLE SAM'S WAR CROSSES

THE MEDAL OF HONOR  
This is the highest award of the United States. It is presented for distinguished gallantry in battle or for heroism of an especially distinguished character not in the regular line of duty.

THE "D.S." CROSS  
The Distinguished Service Cross was recently authorized by the president. It is for heroism under circumstances which do not justify the Medal of Honor.

## THE DAY'S NEWS AT CITY HALL

Bids for 100 tons of Belt & Spigot 4-inch and 8-inch pipe for the water department have been received by Purchasing Agent Edward H. Foye, but the contract has not yet been awarded as there is a question of shipment involved. The lowest bidder was the Warren Foundry and Machine company of Boston, whose bid was \$58.90 a ton, while the Donaldson Iron company of Emaus, Pa., sent in a bid for \$57 a ton. The former company states that it will not be ready for shipment before three or four weeks, while the other company does not mention anything about shipment. Inasmuch as there is a difference of only 10 cents a ton between the two bids, the company that can furnish the material in the shortest time will be awarded the contract. There was another bidder, the R. D. Wood company of Philadelphia, whose bid was \$63 a ton.

Mr. Foye has also received bids for looking for the street department, two companies sending their bids. The bidders were the American Tar company and the Barrett Manufacturing company, and both bids were for 15 cents a gallon, this including the transportation and spraying. The contract has not yet been awarded.

## Sewer Work

Commissioner Morse stated this morning that he has two big sewer jobs now going on, the Varnum avenue sewer for the contagious hospital and the Stockpile street sewer for the addition to St. John's hospital. The commissioner has about 70 men employed on both jobs and he states there is room for many more. A general shortage of help is being felt in the street and sewer department. At present there are about 215 men on the streets and sewers payroll against 300 and 350 about two years ago. Mr. Morse is putting to work all the good men he can reach. This morning the paving of Appleton street was resumed, but this year's part of the job will cost a good deal more than last year, for the pavements will receive \$6 a day against \$4.50 last year, while the rammersmen will be paid \$1 a day against \$3.50 last year. The commissioner expects to wind up on Appleton street in a few weeks.

Mayor Thompson received an invitation this morning to review the Memorial day parade with the other city officials.

BOY SCOUT CAMPAIGN FOR SUBSCRIPTIONS TO THE THIRD LIBERTY LOAN

The White House, Washington.  
March 14, 1918.

My Dear Mr. Livingstone:  
Will you again muster the full strength of the Boy Scouts of America for co-operation with the Treasury department in securing subscriptions for the third Liberty loan? As in the two previous campaigns, it is desired to have the Boy Scouts of America serve as "glenners" in a house-to-house canvass after the "reapers" gleaming during the days set aside for your special campaign.

The patriotic and effective service of the Boy Scouts in your definitely worked out program of war work activities is a splendid testimonial to the value of organized boyhood in helping our country win the war.

It is my earnest wish that every troop of Boy Scouts and every scout and scout official take part in your war service activities and especially in these Liberty loan campaigns. Not only is this of practical service to our country in these critical times, but it is of great educational value to the boys in preparing them for the responsibilities of citizenship.

Sincerely and cordially yours,  
WOODROW WILSON.  
Mr. Colin H. Livingstone,  
President, Boy Scouts of America.

In response to the call of the President of the United States conveyed in the above letter to Colin H. Livingstone, president of the Boy Scouts of America, the Lowell Scouts will start on their campaign for subscriptions on Saturday, April 27.

Scouts are to solicit subscriptions made out on the special blank provided by the U. S. Government and then take them to the bank and then see that their customers follow it up with their first payment before May 4.

No Scout is to receive any money on account of the payment or any charge for his services. Arrangements can be made with certain banks for weekly payments as low as \$1.00, which enables everyone to be a partner in helping to win the war.

Any person not able to get away from their home or who may be overlooked, call up the Scout Executive, Alex. Williams, telephone 30, and arrangements will be made for service.
